

**Request from the University of North Carolina at Chapel Hill
for Authorization to Discontinue the Master of Science in Speech and Hearing
Sciences, Speech and Language Pathology**

Introduction

The University of North Carolina at Chapel Hill requests authorization to discontinue the Master of Science in Speech and Hearing Sciences, Speech and Language Pathology (CIP #51.0203) degree effective May 2008.

Rationale

This program involved a five-university consortium to provide distance based speech training. However, it is no longer an active program, nor are any students currently enrolled in the program. This discontinuation is not a substantive program change; it is intended to reflect the Division's current program offerings. The M.S. and Ph.D. programs in Speech and Hearing Sciences remain active.

Recommendation

It is recommended that the Board of Governors approve the request to discontinue the Master of Science in Speech and Hearing Sciences, Speech and Language Pathology (CIP #51.0203) effective May 2008.
