

BOARD OF GOVERNORS MEETING

The University of North Carolina

January 12, 2007

The Board of Governors met in regular session on January 12, 2007, in the Board Room of the General Administration Building, Chapel Hill. Mr. Phillips, the chairman, called the meeting to order at 9:30 a.m.

Chairman Phillips stated that since its last meeting, the Board of Governors and the University have suffered great losses in the passing of Mrs. Pat Holshouser and former chairman of the board, Ben Ruffin. On the passing of Mrs. Holshouser, he said "Mrs. Holshouser was a wonderful lady who lived a great life and was a wonderful servant of the state of North Carolina. She helped people in her chosen profession of nursing in ways that will always be remembered."

On the passing of Mr. Ruffin, Chairman Phillips said "Our Chairman, Ben Ruffin, will be missed enormously here at our meetings. The passion which he had for this work, for the University, for lifting people up and giving them opportunity was a passion like no other I have known on this board. The one thing that I am pleased about as we move forward is that he instilled in many of us the same beliefs and priorities that he had so that we will carry them on."

INVOCATION

After comments in honor of Mr. Ben Ruffin, Mrs. Gage gave the invocation:

Holy gracious and loving God, we come to you with grateful hearts as we celebrate the life of our friend, Ben Ruffin. We give thanks for his unfailing efforts to repair the pain of enmity among men, to relieve the plight of those less fortunate and to show, by his example, that every person can make a difference. We celebrate this man today, a man who walked with paupers and giants with equal grace; a man who believed all voices and all people mattered equally; a man who sought the positive, not the negative; a man who fought to open doors, not close them; a man who lived a life of purpose; a man who made a difference with that life. Our lives have been enriched and

strengthened by this uncommon man. Give us the strength and courage to continue Ben's work ensuring the doors of opportunity are held wide open for all people. We ask all this in Your name. Amen.

He reported that the committee reviewed the Summary Report of Associated Entities and 95% of the associated entities' audits are up-to-date. All entities that are not up-to-date have been notified to bring their audits current. This is to be accomplished by March 31, 2007.

Mr. Smith reported that at its meeting on the previous day, the committee went into closed session to hear reports on the various investigative audits which are ongoing within the University.

REPORT OF THE COMMITTEE ON EDUCATIONAL PLANNING, POLICIES, AND PROGRAMS

Dr. Taylor, chair of the Committee on Educational Planning, Policies, and Programs, presented the committee's report. She stated that fall 2006 enrollment grew to

202,381 students, an increase of 6,133 students over the fall 2005 enrollment of 196,248. This was a 3.1 percent growth rate for the University of North Carolina overall and the first time it has exceeded 200,000 students.

Dr. Taylor also reported on the following:

- The Scholastic Assessment Test (SAT) changed this year and a writing test has been added. The University average fell by 4 points for the verbal/quantitative measure; however, the national average dropped by 7 points.
- In-state enrollment grew slightly to 86.2% from 86.1% last year and although three campuses exceed 18% of out-of-state students, none have done so for two consecutive years. Therefore, no campuses are in violation of the University's 18% rule.
- The preliminary participation rate of recent high school graduates in the University is 30.3%, a number that will change when second term freshmen enrollment is added.
- Distance and online education continues to grow. We have a total of 24,422 students enrolled in distance or online courses.
- The committee heard a presentation of General Administration's initiative to develop the University of North Carolina Online. The University has secured the services of a marketing firm to assist with market research, branding, and the determination of degree programs most needed. The core function of the University of North Carolina Online entity site is to market UNC campus degrees and certificates, to provide information to potential students, and to direct students to the campuses that have the online degrees or courses they are seeking. It will also allow a student enrolled on one of our campuses to find and register more easily in online courses at other campuses. The goal is to launch the online site on April 2, 2007.
