

Authorization of Tuition for 2011-12

The following RESOLUTION for the 2011-12 academic year reflects the tuition increases that have been proposed by the campuses. Chancellors recommended tuition rate increases consistent with the tuition and fee guidelines established by the Board of Governors at the November 2010 meeting.

RESOLUTION AUTHORIZING TUITION

WHEREAS, G.S. 116-143 requires that the Board of Governors of the University of North Carolina shall fix the tuition and fees, not inconsistent with the actions of the General Assembly, at the constituent institutions of the University.

NOW, THEREFORE, BE IT RESOLVED, that, effective with the Fall Term, 2011 the constituent institutions are authorized to charge and collect the following tuition rates.

I. 2011-12 Tuition Rates

The tuition and fee policy of the Board of Governors provides a framework for the Board to use in reviewing and approving increases in tuition and fees on an annual basis. Additionally, in November 2010, the Board adopted a second four-year tuition plan for campuses to follow in recommending **undergraduate resident tuition and general fees rate** increases.

A. *Increases in Tuition for Professional Schools*

Six campuses propose tuition increases for 2011-12 at their professional schools. The rates require Board of Governors' approval.

East Carolina University

School of Medicine \$1,000 in 2011-12

ECU requests a \$1,000 tuition increase for resident and nonresident students in the medical school. This increase is in addition to the campus-initiated tuition increase proposed for resident graduate students (\$40) and nonresident graduate students (\$147). The additional revenue will be used to support need-based financial aid and academic support infrastructure costs.

School of Dental Medicine (new) establish a rate of \$21,000 for 2011-12

ECU's School of Dental Medicine is a new professional school and will accept its first class of students in the fall of 2011. A tuition rate of \$21,000 (\$7,000 per trimester) is requested for resident students. Use of tuition revenue to provide financial aid (40%) will allow the School to assist students now while developing additional future revenue streams such as federal support and endowments. The remaining 60% would be used for educational operations.

North Carolina State University

Institute for Advanced Analytics

Masters of Advanced Analytics \$4,500 for 2011-12 and 2012-13

NCSU requests multi-year tuition rate increases for the Masters of Advanced Analytics in the Institute for Advanced Analytics. The proposed increases are in addition to the campus-initiated tuition increase proposed for resident and nonresident graduate students (\$600). The tuition revenue would support need-based financial aid, student services, direct instruction (EPA faculty and outside providers). Developing the MSA was made possible through the generosity of a matching gift. The end of the program's three-year curriculum development phase was in May 2010. With the curriculum gift coming to an end, it is time for the MSA program to move to a business model based solely on tuition to sustain itself.

Western Carolina UniversityCollege of Health & Human Sciences

Certified Registered Nurse Anesthetist \$1,256.20 for residents & \$826.20 for nonresidents in 2011-12

WCU's original request submitted in 2007-08 was to increase tuition by \$4,800 per year. The Board recommended the increase be implemented over three years and approved a \$1,500 increase in 2007-08. WCU submitted a \$1,500 increase request for 2008-09--the Board approved only a \$1,000 increase in tuition for 2008-09. In 2009-10, WCU submitted a \$1,000 increase request but withdrew the request during discussions with the Board of Governors. In 2010-11, WCU requested an increase of \$1,258 for residents and nonresidents. The Board approved GA's recommendation of a reduced increase of \$397 for residents. For 2011-12, WCU requests an increase of \$1,256.20 for residents and \$826.20 for nonresidents to move closer to the \$4,800 differential. The funds would support an additional faculty position, faculty salaries (currently WCU's nurse anesthesia faculty are \$10,000 to \$15,000 below the national mean), student and faculty travel, and operating costs associated with program delivery and equipment.

**Several institutions opted to spread their supplemental increases over two years (2010-11 & 2011-12). The amount shown above for these campuses includes the supp. increase implemented in the 2nd year and the proposed campus-based increase.*

Proposed increases for professional schools may also include the requested campus-based increase for resident & nonresident grad students.

II. Special Tuition Rates

A. Nonresident Undergraduate Students

Consistent with the General Statutes and by authorization of the Board of Governors through a resolution passed by the Board in 1983, the campuses are authorized to charge special tuition rates for nonresident undergraduate students.

To qualify for the special rate, a student must have a special talent in academics and the performing arts. For these students, the nonresident tuition rate is reduced by either \$834 or \$950 depending on the Carnegie classification of the institution in 1983. At the time, these amounts approximated half of the nonresident tuition charged to students but do not nearly have the same impact today. Appropriations were made by the legislature to each campus to offset the cost of the tuition waiver.

Effective with the Fall Term of 2011, the special tuition rates for qualifying nonresident undergraduates are shown on the following page. The new rates reflect the tuition increases proposed in Section I.

II. Special Tuition Rates (continued)

B. Nonresident Graduate Students

Consistent with the General Statutes and by authorization of the Board of Governors through a resolution passed by the Board in 1983, the campuses are authorized to charge special tuition rates for nonresident graduate students.

For nonresident graduate students that are awarded a graduate teaching or research assistantship and who are paid a stipend of at least \$2,000 per academic year, the institution may award tuition remission to reduce the nonresident tuition rate to the in-state rate. For an example, the nonresident graduate student tuition rate is proposed to increase from \$14,518.74 to \$15,462.74 at ASU. ASU graduate nonresident students that are eligible to receive tuition remission will be charged the resident tuition rate, which is proposed to increase from \$3,427.74 to \$3,650.74 for the 2011-12 academic year.

Each campus has a state budget for graduate tuition remissions and some campuses supplement state funds from non-state sources. Institutions may not provide graduate tuition remissions to all students. The number of awards is limited to those that meet the criteria and the budget availability.

Effective with the Fall Term of 2011, the special tuition rates for qualifying nonresident graduates are shown on the following two pages. The new rates reflect the tuition increases proposed in Section I.

III. Tuition for Students Enrolled in Degree-Credit Distance Education Courses

Distance education students are charged on a per-credit-hour basis, rather than a “stair-step” methodology charged to regular-term students. The Distance Education per-credit-hour tuition rate is derived by dividing regular term tuition costs by 29.6 for undergraduates and 20.4 for graduate students. Since distance education students are not charged athletic, health, and student activity fees, the cost of education is considerably lower than students that are taking courses using face-to-face instruction.

It is proposed that, effective with the fall semester 2011, resident students and nonresident students taking courses within North Carolina that are enrolled in distance education courses be charged the regular-term tuition rates established in Section I. It is further proposed that tuition rates for these students be implemented on a per-credit-hour basis and that the charge per credit hour be calculated as follows:

- For undergraduate courses, the rate per student credit hour would be the annual rate divided by 29.6 hours.
- For graduate courses, the rate per student credit hour would be the annual rate divided by 20.4 hours.

It is further proposed that the Board delegate to the President the authority to set tuition rates for nonresident students taking courses outside North Carolina. These are students who primarily take courses via the Internet.
