

**Request for Authorization to Discontinue the
Bachelor of Science in Interdisciplinary General Engineering at
North Carolina A&T State University**

North Carolina A&T State University has requested that its Bachelor of Science in Interdisciplinary General Engineering (CIP Code #14.0101) degree programs be discontinued.

At the time of initiation of the program there was a perceived need to offer a general engineering degree. The students in the program later expressed the desire to switch to other more specific engineering programs in the College of Engineering or to the BS in Computer Science program. This general engineering degree program is no longer needed.

Recommendation: It is recommended that the Board of Governors approve North Carolina A&T State University's request to discontinue the Bachelor of Science in Interdisciplinary General Engineering.
