MEMORANDUM

TO: Members, Committee on Educational Planning, Policies, and Programs

FROM: Alan Mabe

DATE: August 31, 2010

SUBJECT: Annual Intercollegiate Athletics Report

NOTE: This is a topic that was postponed in August to September. The Report is the same; however, we have added an Executive Summary that attempts to identify the key findings. The Executive Summary should provide the key points and key charts for the most recent year so unless you are interested in details or more information about a particular campus a review of the summary should be sufficient.

Background: The Board of Governors delegates the responsibility for intercollegiate athletics to the chancellors. The delegation is subject to the Board's policy on intercollegiate athletics, 1100.1.

Jurisdictional Authority: Policy 1100.1, Intercollegiate Athletics requires that "the chancellors shall submit an annual report to the Board of Trustees of the constituent institution with a copy to the President who will report to the Board of Governors." A number of data items are required and are documented in this report.

Issues Involved: As the NCAA has focused more directly on student-athlete academic progress and has established metrics for that progress, the reporting for the NCAA and the general reporting by campuses to UNC GA did not align as well as it could. During the discussion of the most recent report it was proposed that future BOG reports rely more directly on the NCAA's Academic Progress Rate and Graduation Success Rate / Academic Success Rate. This report is prepared along those lines.

Recommended Action: No action recommended. This is a report for information but we welcome any advice regarding improving the report.

2010 BOG Intercollegiate Athletics Report
Executive Summary
August 2010

The Board of Governors delegates the responsibility for intercollegiate athletics to the chancellors. The delegation is subject to the Board's policy on intercollegiate athletics (BOG 1100.1) which requires that "chancellors shall submit an annual report to the Board of Trustees of the constituent institution with a copy to the President who will report to the Board of Governors." Several data items are required by the policy and are documented in this report.

As the NCAA has focused more directly on student-athlete academic progress over the past decade and established metrics for that progress, the campus reporting to the NCAA and the reporting to UNC GA did not align as well as it could. During the discussion of the last BOG report it was proposed that future BOG reports rely more directly on the NCAA's reports on the Academic Progress Rate and the Graduation Success Rate / Academic Success Rate. This year's BOG report reflects these proposed revisions and consists of six tables and several appendices. The page citations to full report are noted below.

Tables 1A and 1B (pages 4-5) present the number of exceptions to the UNC minimum course requirements (MCR) in 2007-08 and 2008-09. The most recent cohort (2008-09) is presented below.

Table 1B
Exceptions to UNC Minimum Course Requirements (MCR)
All Freshmen and Recruited Freshman Student-Athletes
Fall 2008 and Spring 2009

Institution	NCAA Division	Conference	All Freshmen		Recruited Freshman Student-Athletes	
			Total	MCR Exceptions	Total	MCR Exceptions

WCU	I	Southern	2.92	958 / 20	3.08	930 / 19	2.96	902 / 17
WSSU	I	MEAC	2.77	933 / 17	2.97	887 / 17	3.20	937 / **

⁽¹⁾ Table updated as of 10/11/10 based on a resubmission of data from UNC-CH dated 09/24/10.

* Average core HSGPA is based on 16 core courses in Division I and 14 core courses in Division II.

** Data is not provided if the number of student-athletes in the cell is fewer than 3, or there were no new recruited freshman student-athletes in that sport in 2008-2009.

Table 3 (pages 8-9) represents a change from past reporting. This table is no longer based on entering recruited freshman student-athletes since many freshmen are undeclared, may change majors prior to the junior year, and the NCAA does not require a major until the beginning of the fifth semester of enrollment. This revised table displays all recruited student-athletes with a campus registrar's classification of junior (JR) or higher and shows student-athletes are in all but one of the U.S. Department of Education's academic degree categories that are represented across UNC.

The top five majors are:

Business, management, marketing	371
Parks, recreation, leisure & fitness studies	278
Communication, journalism	244
Education	161
Social Sciences	143

Tables 4A (page 12) presents the five (5) UNC institutions and eight (8) sports that had an NCAA Academic Progress Rate (APR) score of less than 925 in the most recent NCAA report (June 2010) and notes the one sport at one institution that received an NCAA penalty (Table 4B, page 13). Institutions are required to establish an “APR Improvement Plan” for each team that is performing below 925 on the APR. The plan must be kept on file at the institution for review during the NCAA’s Athletics Certification Review conducted once every ten (10) years. Institutions with a team(s) achieving a multi-year APR below 900 must report an APR Improvement Plan for that team(s) to the NCAA National Office.

Table 5 (page 14) presents the eleven (11) UNC institutions and their twenty-nine (29) sports that received an NCAA Public Recognition Award for being in the top 10% of the APR scores for that sport.

Table 4A

**NCAA Division I Academic Progress Rates
UNC Institutions Below 925**

Based on the 2005-2006, 2006-2007, 2007-2008, 2008-2009 Academic Years

Institution (N = # of sports with APR below 925)	Sport	Multi-year APR
ECU N=1	Men’s Basketball	904
NCA&T N=3	Men’s Basketball	924
	Football -- PENALTY	843
	Women’s Bowling	878 ^{1, 2}
NCCU N=2	Men’s Basketball	881 ^{1, 3}
	Women’s Bowling	905 ^{1, 3}
UNCA N=1	Men’s Tennis	917
UNCG N=1	Men’s Golf	922

Footnotes are from www.ncaa.org where additional details about the APR methodology can be found.

¹ Denotes APR that does not subject the team to contemporaneous penalties due to the squad-size adjustment. The “upper confidence boundary” of a team’s APR must be below 925 for that team to be subject to contemporaneous penalties. Squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

² Denotes APR that does not subject the team to historical penalties due to the squad-size adjustment. The “upper confidence boundary” of a team’s APR must be below 900 for that team to be subject to historical penalties. The squad size-adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student athletes.

³ Denotes APR based on a two-year cohort, not subject to a historical penalty.

Table 5
NCAA Academic Public Recognition Awards
UNC Institutions
June 2010

Institution N = # of sports receiving an award	Sport
ASU N=2	Women's Field Hockey
	Women's Tennis
ECU N=1	Women's Volleyball
NCA&T N=1	Women's Softball
NCCU N=3	Men's Golf
	Women's Cross Country
	Women's Track, Outdoor
NCSU N=3	Men's Basketball
	Men's Cross Country
	Mixed Rifle
UNCA N=2	Men's Track, Indoor
	Men's Track, Outdoor
UNCG N=2	Women's Basketball
	Women's Golf
UNC-CH N=8	Men's Baseball
	Men's Basketball
	Men's Swimming
	Women's Fencing
	Women's Golf
	Women's Gymnastics
	Women's Swimming
	Women's Volleyball
UNCC N=5	Men's Golf
	Men's Track, Indoor
	Men's Track, Outdoor
	Women's Tennis
	Women's Volleyball
UNCW N=1	Women's Golf
WCU N=1	Women's Golf

Table 6 (page 15) arrays APR information for the last three NCAA reports (2008, 2009, 2010). This summary indicates the number of UNC institutions and the number of sports with APRs below 925 are decreasing; the number of UNC institutions and the number of sports with an NCAA penalty are decreasing; and, the number of UNC institutions and the number of sports receiving a public recognition award for being in the Top 10% of a sport's APRs is increasing.

Table 6
Historical Summary of NCAA Academic Progress Rates

APR Report Year	APR Below 925	Teams Subject to NCAA Penalties	Academic Public Recognition Award
2008			
# of UNC institutions	7	3	6
# of sports	21	5	12
2009			
# of UNC institutions	6	2	7
# of sports	17	2	16
2010			
# of UNC institutions	5	1	11
# of sports	8	1	29

Appendices A, B, C, and D (pages 16-22) provide background information and context for this year's BOG report.

Appendix E (pages 23-38) provides the Graduation Rate Reports (six-year graduation rates) from the NCAA and the U.S. Department of Education for the aggregate cohorts of 1999, 2000, 2001, and 2002 for each UNC institution by sport.

Appendix F (pages 39-84) provides the NCAA Academic Progress Rate (APR) by UNC institution by sport for the aggregate cohorts of 2005-06, 2006-07, 2007-08, and 2008-09. This applies to Division I only.

Intercollegiate Athletics Report

Board of Governors
The University of North Carolina

August 2010

Intercollegiate Athletics Report August 2010

Introduction

The Board of Governors has delegated the responsibility for intercollegiate athletics to the chancellors under the Code's Delegation of Duty and Authority. This delegation is subject to the requirements and mandates of BOG Policy 1100.1 (see Appendix A). Sections 13c, 13d, 13e, and 13f of BOG Policy 1100.1 outline four data elements to be reported annually by the Chancellor to the Board of Trustees with a copy to the President, who will report to the Board of Governors.

These four data elements include those student-athletes who were "recruited." NCAA Article 13.02.13 defines recruiting as: "any solicitation of a prospective student-athlete or a prospective student athlete's relatives (or legal guardians) by an institutional staff member or by a representative of the institution's athletics interests for the purpose of securing the prospective student-athlete's enrollment and ultimate participation in the institution's intercollegiate athletics program." A "recruited" student-athlete may or may not receive an athletic scholarship. Student-athletes who are "walk-ons" and have not been "recruited" by the university are not included in the data presented in this report.

When the last BOG Intercollegiate Athletics Report was presented to the Committee on Educational Planning, Policies, and Programs in January 2009, it was agreed the report would be reviewed to determine if it could in the future "rely more directly on the NCAA reporting rules and thus not duplicate data collection. The General Administration staff will explore revamping the report...." An overview of that exploration and review can be found in Appendix B.

The objective of the 2010 BOG Intercollegiate Athletics Report is to simplify the current reporting requirements of BOG 1100.1 while maintaining a thorough disclosure of the academic characteristics and performance of UNC student-athletes. This year's reporting is guided by well-defined terms, clear cohort rules, non-burdensome nor redundant data collection, and better alignment and synchronization between the BOG report and what campuses are already reporting to the NCAA and the U.S. Department of Education. The methodological details of the changes made for 2010 can be found in Appendix C.

Overview of Changes to the 2010 BOG Report

Since the NCAA has two major data releases each year (i.e., the Academic Progress Rate (APR) in June and the Graduation Success Rate (GSR) and Academic Success Rate (ASR) in November), the alignment of the BOG report has been arranged so campus reporting to UNC GA is in closer proximity to the release of the APR and GSR/ASR. Thus, the following changes will occur in the BOG reporting starting with this 2010 report:

- 1) The annual BOG report will be aligned closer to the NCAA's June release of the APR; i.e., the annual BOG Intercollegiate Athletics Report will be presented at the BOG's first meeting in the fall.

- 2) The GSR/ASR reports will be included as part of the annual BOG Intercollegiate Athletics report.
- 3) The tables and associated appendices in the 2010 BOG Intercollegiate Athletics Report will continue in future reports.
- 4) Booster club audit data is reported each year to the BOG's Audit Committee (usually at the August or September meeting).
- 5) BOG 1100.1 will be reviewed and revisions proposed after the 2010 report to reflect these changes, including:
 - a) Clearly arraying what falls under the Chancellors' reporting requirements to the President,
 - b) Delegating to the President the determination of the specific methodologies to be used in the data collection since the NCAA's data collection continues to evolve and UNC GA needs to be responsive to such data collection and reporting without changing the BOG policy each time such a change is needed, and
 - c) Defining when the Chancellors are to make their reports to their BOTs.

The sections below present the data in the 2010 report.

Profile of All Students and Recruited Freshman Student-Athletes: Exceptions to UNC Minimum Course Requirements (BOG Policy 1100.1, section 13c)

As are all students, student-athletes are subject to BOG Policy 700.1.1 on the "Minimum Course Requirements for Undergraduate Admission" and BOG 700.1.1.1[R] on the "Regulations on Minimum Undergraduate Admission Requirements and the Admission of Students Requiring Special Consideration." Special consideration #6 of the regulation states:

"Other applicants who, due to unusual or special circumstances, do not meet all of the minimum high school course unit requirements but who have achieved a superior academic record, as measured by grades, rank in class, admissions tests scores, the rigor of courses taken, or who demonstrate special talents: institutions may waive some of the minimum requirements for applicants in this category upon a finding that such individuals are qualified. The process resulting in an exception must include faculty participation with final authorization for an exception to be made by the chancellor."

Tables 1A and 1B provide the number of minimum course requirements (MCR) exceptions for all freshmen and recruited freshman student-athletes entering in 2007-2008 and 2008-2009. Fall 2007 marked the second year in which the requirement for a fourth high school unit of mathematics was in effect.

Profile of Recruited Freshman Student-Athletes: (BOG Policy 1100.1, section 13d)

A student-athlete who enrolls as an entering freshman with no previous full-time college attendance must meet the NCAA's academic requirements, as certified by the NCAA Eligibility Center, as approved by the NCAA Executive Committee, and any applicable institutional and conference regulations. Among these academic measures are SAT/ACT scores and the high school grade point average in the NCAA defined high school core courses (see Appendix D).

Tables 2A and 2B present the academic profile of recruited freshman student-athletes in the three major revenue sports who entered in 2007-2008 and 2008-2009. Data is not provided if the number of student-athletes in a cell is fewer than 3, or there were no new recruited freshman student-athletes in that sport in 2007-2008 or 2008-2009.

⁽¹⁾ Table updated as of 10/11/10 based on a resubmission of data from UNC-CH dated 09/24/10.

* Average core HSGPA is based on 16 core courses in Division I and 14 core courses in Division II.

** Data is not provided if the number of student-athletes in the cell is fewer than 3, or there were no new recruited freshman student-athletes in that sport in 2008-2009.

**Majors of All Recruited Student-Athletes With At Least Junior Academic Standing
(BOG Policy 1100.1, section 13e)**

The academic majors of recruited student-athletes vary across academic disciplines. Table 3 provides, by campus, the majors of recruited student-athletes from all sports enrolled in Fall 2009 with at least junior academic standing.

Table 3

**Majors of Recruited Student-Athletes with at Least a Junior Academic Standing
Fall 2009**

Major *	ASU	ECU	ECSU	FSU	NCA&T	NCCU	NCSU	UNCA	UNCCH	UNCC	UNCG	UNCP	UNCW	WCU	WSSU	TOTALS
01 - agriculture, agriculture operations, and related sciences					4		3									7

* 2-digit prefix = the new 2010 Classification of Instructional Programs used by the U.S. Department of Education

** UNCA counts for majors are duplicated headcounts to include student-athletes with 2 majors; the total is un-duplicated

Graduation Rates (BOG Policy 1100.1, section 13f)

Appendix E provides both the NCAA's graduation rate report and the U.S. Department of Education's graduation rate report by campus. Both reports cover the six-year graduation rates for cohorts of 1999-00, 2000-01, 2001-02, and 2002-03.

The NCAA Academic Progress Rate (APR)

What is the APR? In 2003, the NCAA adopted a comprehensive academic reform package designed to improve the academic success and graduation of all student-athletes. The reform initiatives were instituted to make universities and their student-athletes more accountable for achieving steady progress toward degree completion. Details about the APR and other NCAA academic data measures can be found on the NCAA's Education & Research website at: <http://www.ncaa.org/wps/ncaa?ContentID=280>.

How is the APR calculated? Each scholarship student-athlete can earn 2 points each academic term, 1 point for maintaining academic eligibility and 1 point for returning to the institution in the next semester. Thus, the maximum number of points a student-athlete can earn per year toward the team's APR is 4 points, 2 per academic term. To calculate the APR, every student-athlete is tracked by academic eligibility and retention. These are known as an:

- "E" point = student-athlete meets academic eligibility standards for the next academic term.
- "R" point = student-athlete is enrolled full time as of the fifth week of class or census date (whichever is earlier) of the next term.

As examples: Those student-athletes who do well in the classroom and stay in school earn 2 points toward the team's annual APR total for that academic term. Those who are eligible to return but do not return to school earn 1 point. A student-athlete who does not perform well academically and leaves school earns 0 points towards the team's total. The team's APR is calculated by dividing the total points earned in a year by the total points possible in a year and multiplying by 1,000 so the APR is based on a maximum score of 1,000. Each Division I sports team receives an APR score and an APR of 925 equals roughly a 60 percent Graduation Success Rate (GSR).

What does an institution do if it has a low APR score? Institutions are required to establish an “APR Improvement Plan” for each team that is performing below 925 (out of 1,000) on the APR. The plan must be kept on file at the institution for review during the NCAA’s Athletics Certification Review conducted once every ten (10) years. Institutions with a team(s) achieving a multi-year APR below 900 must report an APR Improvement Plan for that team(s) to the NCAA National Office. The NCAA requires the plan must have:

- Broad-based participation.
- Identification of issues impacting APR.
- Specific, measurable goals to address issues.
- Steps to achieve the goals.
- Timetable for implementation.
- Identification of persons responsible for each step.
- Single-year target APR goals.

The most common APR strategies for improvement cited by the NCAA are:

- Increased academic review of incoming student-athletes.
- Specific class attendance policies.
- Summer school bridge programs for incoming student-athletes.
- Reviews of special admissions policies and practices.
- Establishment of mentor programs to encourage student-athlete retention.
- APR education sessions for student-athletes, coaches and campus administrators.
- Increased post-eligibility degree completion programming.

Do any NCAA penalties apply to APR scores below 925? There are two different NCAA penalty structures that may apply to a team with a multi-year APR score below 925:

- Immediate penalties: These are intended to encourage improved academic performance, serve as a "warning" for poorly performing teams, and help avoid the more serious historical penalties.
- Historical penalties: These are more significant punitive measures for teams that habitually underperform academically.
 - Occasion One: Public announcement of the team’s APR.
 - Occasion Two: Public announcement AND financial aid and practice restrictions for the team.
 - Occasion Three: Public announcement AND financial aid and practice restrictions AND postseason competition restriction for the team (e.g., a bowl game or the NCAA basketball tournament).
 - Occasion Four: Public announcement AND financial aid and practice restrictions AND postseason competition restriction for the team AND restricted NCAA membership status for the institution.

What did the 2010 NCAA APR scores show? Publically released by the NCAA in June 2010, the APR scores were based on four years of data covering the student-athlete cohorts who entered in 2005-2006, 2006-2007, 2007-2008, and 2008-2009. Table 4A lists the UNC institutions participating in Division I athletics that had a team(s) with an APR score below 925. Appendix F provides each UNC institution's APR score by sport.

Table 4A

**NCAA Division I Academic Progress Rates
UNC Institutions Below 925
Based on the 2005-2006, 2006-2007, 2007-2008, 2008-2009 Academic Years**

Institution (N = # of sports with APR below 925)	Sport	Multi-year APR
ECU N=1	Men's Basketball	904
NCA&T N=3	Men's Basketball	924
	Football	843
	Women's Bowling	878 ^{1, 2}
NCCU N=2	Men's Basketball	881 ^{1, 3}
	Women's Bowling	905 ^{1, 3}
UNCA N=1	Men's Tennis	917
UNCG N=1	Men's Golf	922

Footnotes are from www.ncaa.org where additional details about the APR methodology can be found.

¹ Denotes APR that does not subject the team to contemporaneous penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 925 for that team to be subject to contemporaneous penalties. Squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

² Denotes APR that does not subject the team to historical penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 900 for that team to be subject to historical penalties. The squad size-adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student athletes.

³ Denotes APR based on a two-year cohort, not subject to a historical penalty.

Did any UNC institutions receive a penalty as a result of the 2010 APRs? Table 4B lists the one UNC institution that received a penalty as a result of the June 2010 APR. The historical penalties are progressive and cumulative in nature. A team must demonstrate three "clean" years (i.e., without any penalty) in order to avoid progression in the historical penalty structure.

Table 4B

**NCAA Division I Academic Progress Rates
Teams Subject to NCAA Penalties
By Institution and Sport
June 2010**

Institution	Sport	APR = 900 – 924	APR LT 900		
		Immediate Penalty	Historical Penalty		
			Occasion One	Occasion Two	
			Public Notice	Scholarship Reduction	Practice Reduction
North Carolina A&T State University	Football	N/A	Yes	<p>Yes</p> <p>Limited to awarding aid to 9.0 initial counters.</p> <p>Limited to awarding aid to 48.0 overall counters.</p> <p>Limited to awarding the equivalency value of 44.58 financial aid awards.</p>	<p>Yes</p> <p>Limited to 5.0 days as well as 16.0 hours of countable activity per week.</p>

Did any UNC campuses receive awards for having high APRs? The NCAA Public Recognition Awards highlight the top 10 percent of teams nationally in each sport based on the most recent APR scores. The UNC institution and sport(s) receiving an NCAA Public Recognition Award are listed in Table 5.

Table 5

**NCAA Academic Public Recognition Awards
UNC Institutions
June 2010**

Institution N = # of sports receiving an award	Sport
ASU N=2	Women's Field Hockey
	Women's Tennis
ECU N=1	Women's Volleyball
NCA&T N=1	Women's Softball

	Women's Volleyball
UNCW N=1	Women's Golf
WCU N=1	Women's Golf

Athletics Fundraising and Private Foundations

The UNC campuses that have established private foundations (or “booster clubs”) for the purpose of providing resources to enrich various programs of the constituent institutions are:

- East Carolina University
- Fayetteville State University
- North Carolina A & T State University
- North Carolina Central University
- North Carolina State University
- UNC-Chapel Hill
- UNC Charlotte
- UNC Greensboro
- UNC Wilmington.

These private organizations are subject to BOG Policy 600.2.5 which requires an annual independent audit be performed and reported to the institution’s Board of Trustees and that a copy be provided to the President to be reviewed by UNC GA staff. This year’s reports are being presented to the Audit Committee of the Board of Governors at its August 2010 meeting.

Summary

The NCAA data is in its third annual reporting cycle of using four successive cohorts to generate APRs. Table 6 demonstrates that UNC has reduced the number of institutions and sports with APRs below 925, reduced the number of institutions and sports receiving penalties, and increased the number of institutions and sports receiving Academic Public Recognition Awards.

Table 6

Historical Summary of NCAA Academic Progress Rates

APR Report Year	APR Below 925	Teams Subject to NCAA Penalties	Academic Public Recognition Award
2008			
# of UNC institutions	7	3	6
# of sports	21	5	12
2009			
# of UNC institutions	6	2	7
# of sports	17	2	16
2010			
# of UNC institutions	5	1	11
# of sports	8	1	29

Appendix A

Board of Governors Policy 1100.1 on Intercollegiate Athletics

ADOPTED 10/11/85
REPLACED 05/09/03

INTERCOLLEGIATE ATHLETICS

1. The Board of Governors has delegated the responsibility for intercollegiate athletics to the chancellors under the Code's Delegation of Duty and Authority. That delegation is subject to the requirements and mandates in this policy.
2. The chancellors shall ensure that all athletes admitted to the institution are capable of progressive academic success and graduation within six years.
3. The chancellors shall ensure that the policies for admission of student-athletes are reviewed by appropriate members or bodies of the faculty and that any recommendations or advice from those members or bodies are received and considered.
4. The chancellors shall ensure that exceptions or waivers for the admission of student-athletes are reviewed by appropriate members or bodies of the faculty and that any recommendation concerning these applicants are received and considered by the chancellors in a timely manner.
5. The chancellors shall ensure that student-athletes follow a coherent course of study that is designed to accomplish reasonable progress toward a baccalaureate degree.
6. Chancellors shall ensure that the tutorial and remedial programs for student-athletes will be administered by appropriate academic offices in cooperation with athletic department officials.
7. The chancellors shall ensure that athletes who are not making satisfactory academic progress are not allowed to continue as team players.
8. The chancellors shall ensure that a mandatory drug-testing program for student-athletes is implemented and monitored.
9. The chancellors shall ensure that formal awareness programs on the dangers of gambling in athletics are implemented.
10. The chancellors shall ensure that the institutions conform with NCAA standards.
11. The chancellors shall ensure that all foundations, clubs, and associations established primarily to raise money on behalf of constituent institutions are audited annually and that those audits are reviewed by the institutional Boards of Trustees and are forwarded to the President.
12. The chancellors shall ensure that the position of director of athletics is separate and distinct from the position of a coach of any sport.

13. The chancellors shall submit an annual report to the Board of Trustees of the constituent institutions with a copy to the President, who will report to the Board of Governors. The annual report shall be designed according to criteria and format defined by the Office of the President and shall include the following elements:

- (a) organization and philosophy of athletics programs;
- (b) the admission policy for student-athletes including the definitions utilized for exceptions to campus-based criteria;
- (c) student-athlete exceptions to the minimum course requirements set by the Board of Governors and defined in Policy 700.1.1 and Regulation 700.1.1.1[R];
- (d) the student-athlete profiles for admitted student-athletes including SAT/ACT scores, high school grade point averages and NCAA classifications;
- (e) information about the majors or programs of study chosen by student-athletes;
- (f) academic progression information for student-athletes and six-year graduation rates; and
- (g) information about “booster” club organizations and procedures.

14. The chancellors shall report to the Board of Trustees the student-athlete exceptions to the institution’s undergraduate admissions criteria.

15. The chancellors shall ensure that the annual report is forwarded to appropriate members or bodies of the faculty and that any response from such members or bodies is received and considered by the chancellors.

This policy consolidates policies 1100.1 and 1100.2

Appendix B

Overview of BOG and NCAA Athletics Reporting

Since the BOG athletics data collection and reporting began in 1986, the magnitude of data collected by the NCAA and the U.S. Department of Education has increased significantly. Under the leadership of the late Myles Brand, President of the NCAA from 2002-2009, the NCAA developed a very robust set of data and research. The campus reported NCAA data was in addition to and partially redundant of the data reported annually for the BOG athletics report by the fifteen UNC campuses with athletics programs.

Several campus representatives from institutional research, athletics, academic support programs for student-athletes, and academic affairs met with UNC GA staff to discuss potential changes. In reviewing the evolution of NCAA reporting in relation to BOG reporting, the following questions were considered:

- 1) BOG/NCAA report content and timing: What is currently being reported to the BOG and why? How has the BOG report evolved over time? What are the NCAA's Academic Progress Rate (APR) and Graduation Success Rate (GSR) and how do they relate to BOG reporting? What are the current timelines for NCAA and BOG reporting? Can the APR and GSR be helpful to the BOG in better understanding intercollegiate athletics? Is there a reporting timeline that would better align BOG reporting with the NCAA's public release of academic progress and graduation data? Does UNC GA want a foreshadowing of any APR and GSR issues on campuses?
- 2) Cohort methodology: Squad list vs. recruited student-athlete vs. other – what are the pluses/minuses of each approach? How are the BOG, NCAA, and the U.S. Department of Education reports alike and different?

Based on a review of these questions, the workgroup agreed that the 2010 BOG reporting would be revised from past reports. The objective of the 2010 BOG athletics reporting is to simplify the current reporting requirements of BOG 1100.1 while maintaining a thorough disclosure of the academic characteristics and performance of UNC student-athletes. This year's reporting is guided by well-defined terms, clear cohort rules, non-burdensome nor redundant data collection, and better alignment and synchronization between the BOG report and what campuses are already reporting to the NCAA.

Appendix C

UNC GA Instructions to Campuses on the 2010 BOG Intercollegiate Athletics Report

Instructions for Tables in the 2010 BOG Report: This year's reporting requirements are best understood by comparing what will be reported in 2010 vs. what each campus reported in the 2009 report. Campuses will not be using the UNC GA institutional research data feed as was used for the 2009 BOG report. The addition of a student-athlete field for the SDF is not recommended at this time; however, campuses are asked to save locally the data set of student-athletes identified for use in Tables 1, 2, and 3 as explained below.

Table #1: Exceptions to UNC minimum course requirements (MCR) for all freshmen and recruited student-athletes

- (a) This table will remain the same as in the past since MCR data reporting is important to share with the BOG and our publics.
- (b) This is a BOG table only; there is no parallel NCAA or Federal data.
- (c) This table will remain as "recruited" student-athletes since it captures the entire set of student-athletes with whom coaches interact.
- (d) For the 2010 BOG report, two cohorts will be reported:
 - i. Fall 2007/Spring 2008 "recruited" student-athlete cohort (to be Table #1A), and
 - ii. Fall 2008/Spring 2009 "recruited" student-athlete cohort (to be Table #1B).Reporting two cohorts this year will make up the lag in reporting to the BOG that currently exists. Next year's report will return to reporting only one cohort, fall 2009 and spring 2010.

Table #2: Profile of recruited freshman student-athletes in revenue sports

- (a) This table will remain the same since a profile of the highly visible revenue sports is important to share with the BOG and our publics.
- (b) For the 2010 BOG report, two cohorts will be reported:
 - i. Fall 2007/Spring 2008 "recruited" student-athlete cohort (to be Table #2A), and
 - ii. Fall 2008/Spring 2009 "recruited" student-athlete cohort (to be Table #2B).Reporting two cohorts this year will make up the lag in reporting to the BOG that currently exists. Next year's report will return to reporting only one cohort, fall 2009 and spring 2010.
- (c) Enter a "*" if the number of student-athletes in the cell is fewer than 3 and do not report the data; however, you must maintain the data in your campus dataset. Enter "NA" in a cell if there were no recruited freshman student-athletes in the sport.

Table #3: Majors of recruited freshman student-athletes (old title)

- (a) This table will be revised beginning with the 2010 BOG report and will be re-titled, “Majors of all recruited student-athletes with at least junior academic standing.”
- (b) There will be a change in the academic classification of student-athletes reported in this table. The table will no longer be based on freshmen (FR) status and a specific cohort. Reporting freshman majors for a specific cohort is meaningless since many freshmen are undeclared, may change majors prior to the junior year, and the NCAA does not require a major until the beginning of the fifth semester. This table will now use all recruited student-athletes with a campus registrar’s classification of junior (JR) or higher.
- (c) The cohort to be reported is composed of all “recruited” student-athletes who were enrolled in fall 2009. This includes recruited student-athletes who have exhausted athletics eligibility and/or are no longer on the team.
- (d) 2-digit CIP codes define the majors.

Table #4: Six-year graduation rates for all first-time entering freshmen, all recruited student-athletes, and recruited freshman student-athletes in revenue sports

- (a) This table will be deleted starting with the 2010 BOG report.
- (b) Tracking only freshmen who enroll in fall semester ignores all student-athletes who enroll in the spring semester and transfers who enroll at any time. The past methodology provided only a partial snapshot of the total student-athlete population and does not represent a full picture of the academic progression and graduation of student-athletes.
- (c) Campuses will not have to submit anything to UNC GA for this table. The new section will be composed of the NCAA’s GSR and ASR data and the Federal data reported in October 2009 and found on www.NCAA.org.

Table #5A: NCAA Division I academic progress rates, UNC institutions below 925

- (a) This table will remain the same and will reflect the June 2010 NCAA APR data. Campuses will not have to submit anything to UNC GA for this table. Campuses report data to the NCAA 6 weeks after the fall semester begins and then there is an iterative process between the campus and the NCAA to answer any questions about their data.
- (b) It is recommended beginning with the 2010-11 NCAA APR cycle that campuses provide UNC GA an oral summary of the final APR data they agree to with the NCAA as soon as the campuses know the final disposition of their data submission. More details about this process will be sent to campuses from UNC GA in fall 2010.

Table #5B: NCAA Division I academic progress rates, teams subject to NCAA penalties by institution and sport

- (a) This table will remain the same and will reflect the June 2010 NCAA APR data. Campuses will not have to submit anything to UNC GA for this table. Campuses report data to the NCAA 6 weeks after the fall semester begins and then there is an iterative process between the campus and the NCAA to answer any questions about their data.
- (b) It is recommended beginning with the 2010-11 NCAA APR cycle that campuses provide UNC GA an oral summary of any penalties they agree to with the NCAA as soon as the campuses know the final disposition. More details about this process will be sent to campuses from UNC GA in fall 2010.

Table #6: NCAA academic public recognition awards for UNC institutions

- (a) This table will remain the same and will reflect the June 2010 NCAA APR data. Campuses will not have to submit anything to UNC GA for this table.
- (b) It is recommended beginning with the 2010-11 NCAA APR cycle that campuses provide UNC GA an oral summary of any penalties they agree to with the NCAA as soon as the campuses know the final disposition. More details about this process will be sent to campuses from UNC GA in fall 2010.

Appendix D

NCAA High School Core Courses Requirement for Initial Eligibility

DIVISION I

2005-2007: 14 Core Courses

- 4 years of English
- 2 years of mathematics (Algebra I or higher)
- 2 years of natural/physical science (1 year of lab if offered by high school)
- 1 year of additional English, mathematics, or natural/physical science
- 2 years of social science
- 3 years of additional courses (from any area above, foreign language or nondoctrinal religion/philosophy)

2008 and after: 16 Core Courses

- 4 years of English
- 3 years of mathematics (Algebra I or higher)
- 2 years of natural/physical science (1 year of lab if offered by high school)
- 1 year of additional English, mathematics, or natural/physical science
- 2 years of social science
- 4 years of additional courses (from any area above, foreign language or nondoctrinal religion/ philosophy)

DIVISION II

2005 and after: 14 Core Courses

- 3 years of English
- 2 years of mathematics (Algebra I or higher)
- 2 years of natural/physical science (1 year of lab if offered by high school)
- 2 years of additional English, mathematics, or natural/physical science
- 2 years of social science
- 3 years of additional courses (from any area above, foreign language or nondoctrinal religion/ philosophy)

Appendix E

Graduation Rate Reports (cohorts 1999-2002)

- NCAA Graduation Success Rate (GSR) for Division I Institutions
- NCAA Academic Success Rate (ASR) for Division II Institutions
- U.S Department of Education Graduation Report for All Institutions

GSR/ASR methodologies

- The GSR measures graduation rates at Division I institutions and includes students transferring into the institutions. The GSR also allows institutions to subtract student-athletes who leave their institutions prior to graduation as long as they would have been academically eligible to compete had they remained.
- The parallel Division II report, known as the “Academic Success Rate” (ASR), measures graduation rates and is very similar to the GSR. The difference is that the ASR also includes those freshmen who were recruited to the institution but did not receive athletics financial aid.
- The GSR adds to the first-time freshmen, those students who entered mid-year, as well as student-athletes who transferred into an institution; subtracts students from the entering cohort who are considered “allowable exclusions” (those who either die or become permanently disabled, those who leave the school to join the armed forces, foreign services or attend a church mission) and those who would have been academically eligible to compete had they returned to the institution.
- Includes both Fall and Spring semesters.
- Includes new freshmen as well as new transfers.
- Provides a 4-cohort rolling average on the 6-year graduation rate.
- Includes scholarship student-athletes.
- By sport.

Federal methodology

- Includes only first-time full-time freshmen enrolled in Fall semester.
- Includes scholarship student-athletes.
- Does not include transfers in or transfers out.
- Provides the most recent cohort and a 4-cohort rolling average.
- By sport defined as football, men’s basketball, women’s basketball, baseball, men’s cross country/track, men’s cross country/track, men’s other, women’s other.
- By gender and race.

Appendix F

NCAA Academic Progress Rates (APR) for UNC Institutions Participating in Division I

**Cohort years:
2005-06, 2006-07, 2007-08, 2008-09**

NCAA Division I 2008 - 2009 Academic Progress Rate

Public Report

Institution: Appalachian State University

Date of Report: 06/04/2010

This report is based on NCAA Division I Academic Progress Rate (APR) data submitted by the institution for the 2005-06, 2006-07, 2007-08, and 2008-2009 academic years.

*[Note: All information contained in this report is for four academic years. Some squads may still have small sample sizes within certain sport groups. In accordance with the Family Educational Rights and Privacy Act's (FERPA's) interpretation of federal privacy regulations, data cells containing three or fewer student-athletes have been suppressed and are indicated by an * symbol. The information in this report does not reflect any changes to data made after this date.]*

The following chart represents by-sport APR averages for noted subgroups.

Sport (N)	Multiyear APR	2008-2009 APR	Percentile Rank within Sport	Percentile Rank within All Sports	All Division I	P u b l i c Institutions	Private Institutions	Football Bowl Subdivision	Football Championship Subdivision	Division I (Non-Football)
By Sport - Men's										
Baseball (298)	954	981	40th-50th	20th-30th	954	946	971	960	950	950
Basketball (343)	966	980	70th-80th	40th-50th	940	931	958	942	938	942
Cross Country (313)	979	1000	60th-70th	60th-70th	967	962	976	973	963	967
Football (243)	970	985	80th-90th	40th-50th	944	937	963	947	939	NA
Fencing (19)	NA	NA	NA	NA	967	943	979	975	981	946
Golf (297)	975	1000	50th-60th	50th-60th	969	963	980	973	965	971

* Denotes data representing three or fewer student-athletes. In accordance with FERPA's interpretation of federal privacy regulations, institutions should not disclose statistical data contained in this report in cells made up of three or fewer students without student consent.

N/A = No APR or not applicable.

N = Number of teams represented.

¹ Denotes APR that does not subject the team to a contemporaneous penalty because the team is performing better than the institution's general student body, or based on institutional, athletics and student resources.

² Denotes APR that does not subject the team to contemporaneous penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 925 for that team to be subject to contemporaneous penalties. Squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

³ Denotes APR that does not subject the team to historical penalties due to the team's demonstrated academic improvement and favorable comparison based on other academic or institutional factors.

⁴ Denotes APR that does not subject the team to historical penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 900 for that team to be subject to historical penalties. The squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

⁵ Denotes APR based on a one year cohort, not subject to a contemporaneous and/or historical penalty.

⁶ Denotes APR based on a two year cohort, not subject to a historical penalty.

* Denotes data representing three or fewer student-athletes. In accordance with FERPA's interpretation of federal privacy regulations, institutions should not disclose statistical data contained in this report in cells made up of three or fewer students without student consent.

N/A = No APR or not applicable.

N = Number of teams represented.

¹ Denotes APR that does not subject the team to a contemporaneous penalty because the team is performing better than the institution's general student body, or based on institutional, athletics and student resources.

² Denotes APR that does not subject the team to contemporaneous penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 925 for that team to be subject to contemporaneous penalties. Squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

³ Denotes APR that does not subject the team to historical penalties due to the team's demonstrated academic improvement and favorable comparison based on other academic or institutional factors.

⁴ Denotes APR that does not subject the team to historical penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 900 for that team to be subject to historical penalties. The squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

⁵ Denotes APR based on a one year cohort, not subject to a contemporaneous and/or historical penalty.

⁶ Denotes APR based on a two year cohort, not subject to a historical penalty.

Track, Outdoor (318)	981	1000	60th-70th	60th-70th	969	963	981	969	971	967

* Denotes data representing three or fewer student-athletes. In accordance with FERPA's interpretation of federal privacy regulations, institutions should not disclose statistical data contained in this report in cells made up of three or fewer students without student consent.

N/A = No APR or not applicable.

N = Number of teams represented.

¹ Denotes APR that does not subject the team to a contemporaneous penalty because the team is performing better than the institution's general student body, or based on institutional, athletics and student resources.

² Denotes APR that does not subject the team to contemporaneous penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 925 for that team to be subject to contemporaneous penalties. Squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

³ Denotes APR that does not subject the team to historical penalties due to the team's demonstrated academic improvement and favorable comparison based on other academic or institutional factors.

⁴ Denotes APR that does not subject the team to historical penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 900 for that team to be subject to historical penalties. The squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

⁵ Denotes APR based on a one year cohort, not subject to a contemporaneous and/or historical penalty.

⁶ Denotes APR based on a two year cohort, not subject to a historical penalty.

NCAA Division I 2008 - 2009 Academic Progress Rate Penalty Summary

Institution: North Carolina A&T State University

Date of Report: 06/04/2010

This report is based on data submitted by the institution for the 2005-06, 2006-07, 2007-08, and 2008-2009 academic years.

This report provides a summary of the teams identified at your institution that are subject to a contemporaneous penalty and/or historical penalty and their multiyear APR. The historical-penalty structure has a cumulative effect that continues to apply each year as a team progresses through the structure. Each year a team fails the historical-penalty review another stage of penalties will be added.

Sport	Multiyear APR	Contemporaneous Penalty	Historical Penalty - Occasion One	Historical Penalty - Occasion Two	Historical Penalty - Occasion Three	Historical Penalty - Occasion Four
Football	843	N/A	Public notice.	Limited to awarding aid to 9.0 initial counters. Limited to awarding aid to 48.0 overall counters. Limited to awarding the equivalency value of 44.58 financial aid awards. Limited to 5.0 days as well as 16.0 hours of countable activity per week.		

¹ Any contemporaneous penalty for the sports of cross country, indoor and/or outdoor track must count against the NCAA maximum team limit for cross country/track and field (i.e., 18 women's, 12.6 men's). If the institution sponsors cross country and does not sponsor track and field, the penalty counts against the NCAA maximum team limit for cross country (i.e., five men's, six women's).

² The penalty amount listed includes a penalty that was previously conditionally waived; however, the team failed to meet the condition and the penalty must now be imposed.

⁴ The Post-Season Competition penalty for this sport has been waived.

⁵ The institution's penalty waiver request is pending.

⁶ The Membership Restriction penalty for this sport has been waived.

NCAA Division I 2008 - 2009 Academic Progress Rate

Public Report

* Denotes data representing three or fewer student-athletes. In accordance with FERPA's interpretation of federal privacy regulations, institutions should not disclose statistical data contained in this report in cells made up of three or fewer students without student consent.

N/A = No APR or not applicable.

N = Number of teams represented.

¹ Denotes APR that does not subject the team to a contemporaneous penalty because the team is performing better than the institution's general student body, or based on institutional, athletics and student resources.

² Denotes APR that does not subject the team to contemporaneous penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 925 for that team to be subject to contemporaneous penalties. Squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

³ Denotes APR that does not subject the team to historical penalties due to the team's demonstrated academic improvement and favorable comparison based on other academic or institutional factors.

⁴ Denotes APR that does not subject the team to historical penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 900 for that team to be subject to historical penalties. The squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

⁵ Denotes APR based on a one year cohort, not subject to a contemporaneous and/or historical penalty.

⁶ Denotes APR based on a two year cohort, not subject to a historical penalty.

* Denotes data representing three or fewer student-athletes. In accordance with FERPA's interpretation of federal privacy regulations, institutions should not disclose statistical data contained in this report in cells made up of three or fewer students without student consent.

N/A = No APR or not applicable.

N = Number of teams represented.

¹ Denotes APR that does not subject the team to a contemporaneous penalty because the team is performing better than the institution's general student body, or based on institutional, athletics and student resources.

² Denotes APR that does not subject the team to contemporaneous penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 925 for that team to be subject to contemporaneous penalties. Squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

³ Denotes APR that does not subject the team to historical penalties due to the team's demonstrated academic improvement and favorable comparison based on other academic or institutional factors.

⁴ Denotes APR that does not subject the team to historical penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 900 for that team to be subject to historical penalties. The squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

⁵ Denotes APR based on a one year cohort, not subject to a contemporaneous and/or historical penalty.

⁶ Denotes APR based on a two year cohort, not subject to a historical penalty.

* Denotes data representing three or fewer student-athletes. In accordance with FERPA's interpretation of federal privacy regulations, institutions should not disclose statistical data contained in this report in cells made up of three or fewer students without student consent.

N/A = No APR or not applicable.

N = Number of teams represented.

¹ Denotes APR that does not subject the team to a contemporaneous penalty because the team is performing better than the institution's general student body, or based on institutional, athletics and student resources.

² Denotes APR that does not subject the team to contemporaneous penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 925 for that team to be subject to contemporaneous penalties. Squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

³ Denotes APR that does not subject the team to historical penalties due to the team's demonstrated academic improvement and favorable comparison based on other academic or institutional factors.

⁴ Denotes APR that does not subject the team to historical penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 900 for that team to be subject to historical penalties. The squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

⁵ Denotes APR based on a one year cohort, not subject to a contemporaneous and/or historical penalty.

⁶ Denotes APR based on a two year cohort, not subject to a historical penalty.

* Denotes data representing three or fewer student-athletes. In accordance with FERPA's interpretation of federal privacy regulations, institutions should not disclose statistical data contained in this report in cells made up of three or fewer students without student consent.

N/A = No APR or not applicable.

N = Number of teams represented.

¹ Denotes APR that does not subject the team to a contemporaneous penalty because the team is performing better than the institution's general student body, or based on institutional, athletics and student resources.

² Denotes APR that does not subject the team to contemporaneous penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 925 for that team to be subject to contemporaneous penalties. Squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

³ Denotes APR that does not subject the team to historical penalties due to the team's demonstrated academic improvement and favorable comparison based on other academic or institutional factors.

⁴ Denotes APR that does not subject the team to historical penalties due to the squad-size adjustment. The "upper confidence boundary" of a team's APR must be below 900 for that team to be subject to historical penalties. The squad-size adjustment does not apply to teams with four years of APR data and a multiyear cohort of 30 or more student-athletes.

⁵ Denotes APR based on a one year cohort, not subject to a contemporaneous and/or historical penalty.

⁶ Denotes APR based on a two year cohort, not subject to a historical penalty.

NCAA Division I 2008 - 2009 Academic Progress Rate
