B-4. Authorization of Tuition for 2018-19

The following RESOLUTION for the 2018-19 academic year reflects the tuition increases proposed by the institutions. The Board of Governors recommends no increases in tuition rates for undergraduate resident students. In addition, the 2016 General Assembly enacted a new guaranteed tuition program that fixes tuition rates for first-time full-time resident undergraduates and new transfer students that remain continuously enrolled for eight consecutive semesters or the equivalent number of remaining semesters for transfer students. Resident undergraduate tuition rates for 2018-19 will only apply to the cohort of students that enroll in the fall of 2018. The chancellors and their boards of trustees requested tuition rate increases for students consistent with legislative and UNC System Office guidelines.

II. 2018-19 Special Tuition Rates

Nonresident Graduate Students

Consistent with the General Statutes and by authorization of the Board of Governors through a resolution passed by the Board in 1983, the institutions are authorized to charge special tuition rates for nonresident graduate students.

For nonresident graduate students that are awarded a graduate teaching or research assistantship and who are paid a stipend of at least \$2,000 per academic year, the institution may award tuition remission to reduce the nonresident tuition rate to the in-state rate. For example, the nonresident graduate student tuition rate is proposed to increase from \$23,967 to \$25,405 at North Carolina State University for 2018-19. NCSU graduate nonresident students who are eligible to receive tuition remission will be charged the resident tuition rate, which is proposed to increase from \$8,492 to \$8,917 for the 2018-19 academic year.

Each university receives a state appropriation for graduate tuition remissions and some universities supplement this appropriation from other non-state sources. Institutions may not provide graduate tuition remissions to all students. The number of awards is limited to those that meet the criteria and the budget availability.

Note: The 2011 General Assembly eliminated state appropriations for nonresident undergraduate tuition waivers that had been in place since 1983 [Sec. 9.13(b) of S.L. 2011-145].

III. Tuition for Students Enrolled in Degree-Credit Distance Education Courses

Distance education (DE) students are charged on a per-credit-hour basis, rather than a "stair-step" methodology charged to regular-term students. The DE per-credit-hour tuition rate is derived by dividing regular term tuition costs by 29.6 for undergraduates and 20.4 for graduate students. Since distance education students are not charged athletics, health services, student activities fees, and debt service fees, the cost of education is considerably lower than students that are taking courses using face-to-face instruction.

It is proposed that, effective with the fall term of 2018, resident students and nonresident students taking courses within North Carolina that are enrolled in distance education courses be charged the regular-term tuition rates established in Section I. It is further proposed that tuition rates for these students be implemented on a per-credit-hour basis and that the charge per credit hour be calculated as follows:

- For undergraduate courses, the rate per student credit hour would be the annual rate divided by 29.6 hours.
- For graduate courses, the rate per student credit hour would be the annual rate divided by 20.4 hours.

It is further proposed that the Board delegate to the president the authority to set tuition rates for nonresident students taking courses outside North Carolina. These are students who primarily take courses via the Internet.
