

Authorization of Tuition for 2007-08

The following RESOLUTION for the 2007-08 academic year reflects the tuition increases that have been proposed by the campuses. Chancellors recommended tuition rate increases consistent with the tuition and fee parameters established by the Board of Governors at the October 2006 meeting.

RESOLUTION AUTHORIZING TUITION

WHEREAS, G.S. 116-143 requires that the Board of Governors of the University of North Carolina shall fix the tuition and fees, not inconsistent with the actions of the General Assembly, at the constituent institutions of the University.

NOW, THEREFORE, BE IT RESOLVED, that, effective with the Fall Term, 2007 the constituent institutions are authorized to charge and collect the following tuition rates.

## **I. 2007-08 Tuition Rates**

The tuition and fee policy of the Board of Governors provides a framework for the Board to use in reviewing and approving increases in tuition and fees on an annual basis. Additionally, in October 2006, the Board adopted a four-year plan for campuses to follow in recommending **undergraduate resident tuition and general fee rate** increases. The Board's guidelines for setting the tuition and fee rates for the 2007-08 fiscal year are listed below.

1. The maximum rate of annual increase for campus-initiated tuition and general fees (Athletics, Health Services, Student Activities, and Educational and Technology Fees) for undergraduate resident students should be 6.5%. Fees required for debt service are in addition to the maximum percentage increase, but funds required to operate facilities are included in the maximum.
2. All proposals for increasing tuition and fees must be accompanied by explicit plans for the use of the increased funds.
  - a. The Board requires campuses to set aside at least 25% of new tuition revenues to be added to the campus' pool of need-based financial aid.
  - b. At least 25% of new tuition revenues shall support bringing faculty salaries to the 80<sup>th</sup> percentile of its peers.
  - c. Any remaining revenues may be used to provide for improved library and counseling services, reductions in class size, increases in sections offered, enhancements in student services, and other purposes that improve the quality of the students' academic experience.
3. Increases in student fees must be justified by an expenditure plan that shows how the additional revenues will directly benefit the fee-supported activity.
4. Combined tuition and fee rates for resident undergraduates shall remain within the bottom quarter of each campus' public peers, as approved by the Board of Governors. In addition, combined rates for non-resident undergraduate students shall remain below the top quarter of the same approved peer group.

The established guidelines do not apply to increases in debt service fees. In addition, the parameters do not apply to tuition rates for undergraduate nonresidents, graduate students, and professional school students. Chancellors recommended debt service fees, undergraduate nonresident rates, graduate and professional school tuition increases as allowed by the Board's policy.

Proposals submitted by campuses meet the Board's directive to increase the pool of financial aid funding, bring faculty salaries to the 80<sup>th</sup> percentile, expand student services, continue to reduce class size, increase course offerings, improve library operations and other purposes that improve the overall student experience.

***A. Previously Board-approved Tuition Increases in Professional Schools:***

The following tuition increases for professional schools were approved by the Board of Governors during its March 2005 and February 2006 meetings for the 2007-08 fiscal year. At those meetings, the Board approved tuition increases for professional schools for multi-year periods. These rates will become effective in the fall semester 2007.

UNC-Chapel Hill

Masters of Business Administration	<i>Resident Students:</i> Half the nonresident rate increase for 2007-08 (\$1,000) <i>Nonresident Students:</i> \$2,000 for 2007-08
Masters of Accounting	<i>Resident Students:</i> Half the nonresident rate increase for 2007-08 (\$1,000) <i>Nonresident Students:</i> \$2,000 for 2007-08
Masters of Public Health	Entering Fall 2005 - \$500 for 2007-08
Medicine (M.D. Candidate)	<i>Resident Students:</i> \$490 for 2007-08 <i>Nonresident Students:</i> \$490 for 2007-08  <i>Resident Students:</i> \$515 for 2008-09 <i>Nonresident Students:</i> \$515 for 2008-09

***B. Increases in Tuition for Professional Schools***

Four schools propose tuition increases for 2007-08 at their professional schools. The rates require Board of Governors approval.

North Carolina Central University

School of Law	\$1,000 for 2007-08; \$1,000 for 2008-09; \$1,000 for 2009-10; and \$1,000 for 2010-11.
---------------	--

The Law School proposes a tuition increase to provide additional funding for salary competitiveness and faculty retention. In addition, the funding would provide for financial aid, academic support, and student services.

UNC-Chapel Hill

Doctorate of Audiology (AuD)	\$1,000 for FY 2007-08
Doctorate of Physical Therapy (DPT)	
Masters of Physical Therapy (MPT)	

The additional revenues would support student aid, enhance program quality through the hiring of additional faculty, and address disparities in faculty salaries.

Pharmacy	\$1,500 for FY 2007-08
----------	------------------------

The funding would be used to provide student aid to ensure access of education. In addition, the increased revenue will support minority recruitment efforts, address faculty salaries, and enhance the operating budgets dedicated to support program delivery.

Masters of Health Administration	\$500 increase in 2007-08, \$500 increase in 2008-09
Masters of Science in Public Health	

The increase in revenues would address faculty salary competitiveness, support student financial aid and enhance operating budgets for technology equipment and supplies.

UNC Greensboro

Masters of Science in Accounting

\$70 per credit hour for 2007-08

The tuition differential would be used for the creation of a Graduate Accounting Office for professional relations and student affairs. The office would coordinate activities focused on building relationships with local accounting firms and private industry for the benefit of graduate accounting students. In addition, the office would provide career counseling, permanent placement services, and coordinate internship positions. The increase totals \$1680.

Masters of Science in Information Technology

\$20 per credit hour increase for 2007-08

Funding is requested to support the course and curriculum development initiatives, including faculty development activities. In addition, the funding would support marketing and promotion of the Master of Science in Information Technology and Management program. The increase totals \$480.

Western Carolina University

Master of Science in Nursing

\$4,800 increase for 2007-08

Certified Registered Nurse Anesthetist

The increase in tuition rates for the Master of Science in Nursing would impact approximately 20 students enrolled in the Certified Registered Nurse Anesthetist program. The additional revenue would support faculty salaries, fund equipment, and operating costs associated with program delivery.

The tuition rates on the following two pages reflect the campus-initiated tuition proposals submitted by all institutions for 2007-08.

## II. Special Tuition Rates

### *A. Nonresident Undergraduate Students*

Consistent with the General Statutes and by authorization of the Board of Governors through a resolution passed by the Board in 1983, the campuses are authorized to charge special tuition rates for nonresident undergraduate students.

To qualify for the special rate, a student must have a special talent in academics, the performing arts, or athletics. For these students, the nonresident tuition rate is reduced by either \$834 or \$950 depending on the Carnegie classification of the institution in 1983. At the time, these amounts approximated half of the nonresident tuition charged to students but do not nearly have the same impact today. Appropriations were made to each campus to offset the cost of the tuition waiver. During the 2007-08 year, the Finance Division should review the current usage of these funds to determine if the waivers remain meaningful to the campuses or if the budgeted waivers could be used for another purpose.

Effective with the Fall Term of 2007, the special tuition rates for qualifying nonresident undergraduates are shown on the following page. The new rates reflect the tuition increases proposed in Section I.

## Special Tuition Rates for Qualifying Nonresident Undergraduate Students 2007-08

## II. Special Tuition Rates (continued)

### *B. Nonresident Graduate Students*

Consistent with the General Statutes and by authorization of the Board of Governors through a resolution passed by the Board in 1983, the campuses are authorized to charge special tuition rates for nonresident graduate students.

For nonresident graduate students that are awarded a graduate teaching or research assistantship and who are paid a stipend of at least \$2,000 per academic year, the institution may award tuition remission to reduce the nonresident tuition rate to the in-state rate. For an example, the nonresident graduate student tuition rate is proposed to increase from \$16,086 to \$16,316 at NCSU. NCSU graduate nonresident students that are eligible to receive tuition remission will be charged the resident tuition rate, which is proposed to increase from \$4,038 to \$4,268 for the 2007-08 academic year.

Each campus has a state budget for graduate tuition remissions and some campuses supplement state funds from non-state sources. Institutions may not provide graduate tuition remissions to all students. The number of awards is limited to those that meet the criteria and the budget availability. The Board of Governors requested an additional \$10.2 million in the 2007-09 biennial budget to support 900 additional slots of tuition remissions.

Effective with the Fall Term of 2007, the special tuition rates for qualifying nonresident graduates are shown on the following two pages. The new rates reflect the tuition increases proposed in Section I.

### **III. Tuition for Students Enrolled in Degree-Credit Distance Education Courses**

Distance education students are charged on a per-credit-hour basis, rather than a “stair-step” methodology charged to regular-term students. The Distance Education per-credit-hour tuition rate is derived by dividing regular term tuition costs by 29.6 for undergraduates and 20.4 for graduate students. Since distance education students are not charged athletic, health, and student activity fees, the cost of education is considerably lower than students that are taking courses using face-to-face instruction.

It is proposed that, effective with the fall semester 2007, resident students and nonresident students taking courses within North Carolina that are enrolled in distance education courses be charged the regular-term tuition rates established in Section I. It is further proposed that tuition rates for these students be implemented on a per-credit-hour basis and that the charge per credit hour be calculated as follows:

- For undergraduate courses, the rate per student credit hour would be the annual rate divided by 29.6 hours.
- For graduate courses, the rate per student credit hour would be the annual rate divided by 20.4 hours.

It is further proposed that the Board delegate to the President the authority to set tuition rates for nonresident students taking courses outside North Carolina. These are students who primarily take courses via the Internet.

**The University of North Carolina**  
**PROPOSED Tuition and Fees Applicable to All Regular Full-Time Undergraduate Students**  
**Resident Students - Carnegie Classification**  
**2007-08**
