

Dual Memberships and Conflicts of Interest

The Board of Governors seeks at all times to be fair and impartial in carrying out its responsibilities and tries to avoid even the appearance of partiality or undue influence. To promote this objective the following guidelines are adopted as board policy and recommended to the members for their guidance:

1. Service on Foundation Boards or Boards of Visitors of Constituent Institutions

Members of the Board of Governors may, from time to time, be asked to serve simultaneously on a foundation board or a board of visitors or some similar board for one of the sixteen constituent institutions. No matter how conscientious or successful a member may be in maintaining impartiality among constituent institutions, service on such a board will undoubtedly be construed by some as showing favoritism. It is also felt that some institutions will feel pressure to name members of the Board of Governors to such boards if service on them becomes commonplace. For these reasons members of the Board of Governors are encouraged to decline any such service.

2. Service on Boards of Private Colleges and Universities

Members of the Board of Governors may be asked to serve simultaneously on the board of a private college or university in North Carolina. While such an invitation is always an honor, there are potential areas of conflict in such dual memberships. A member should satisfy himself or herself that dual service will not interfere with his or her obligations either to the University of North Carolina or to the private institution.

3. Inquiries Concerning Admissions and Job Openings

From time to time a member of the Board of Governors may wish to inquire, either directly or through an officer of the University, about a job opening in the University or about the admission of an individual to an institution or to a program. Sometimes a board member is asked to write a letter of recommendation on behalf of a candidate for a job or for admission. It is highly inappropriate to use one's position on the Board of Governors in an attempt to influence employment or admissions. It is not inappropriate, however, for a member to make inquiries or to write letters of recommendation on the member's personal or business stationery. It should always be clear that the board member is not seeking a favor and understands that the decision in all cases will be made strictly on the merits.

4. Appointments by the Board of Governors

In order to avoid any appearance of undue influence, the Board of Governors will not consider for membership on any board to which it makes appointments any person who is a spouse of a Board of Governors member, a brother or a sister or a lineal ancestor or descendant of a member, or the spouse of any such person. This policy shall not apply, however, to any person who may have been elected or appointed to any such board prior to the time the related person became a member of the Board of Governors. Nor shall the policy apply to any person who may already be serving on any such board at the time of the adoption of the policy. The Board of Governors will not consider for membership on any board to which it makes appointments any person who was a member of the Board of Governors at any time during the two-year period immediately preceding the effective date of the appointment. The boards to which this policy shall apply include the Boards of Trustees of the constituent institutions and all boards to which the Board of Governors make appointments.

5. Inappropriate Advantage Derived from Board Membership

a. Purpose: It is of critical importance that decisions made on behalf of the University by its governors, trustees, chief executive officers, and chief finance officers be in the best interest of the University and not be influenced by any potential financial gain to the decision-makers. Furthermore, to assure public confidence in the integrity of the University, it is important that the University not appear to be influenced by the personal financial interests of those in decision-making positions. The purpose of this policy is assure public confidence in the integrity of the University by preventing members of the governing boards and chief executive and finance officers of the University from using their positions, or appearing to use their positions, to influence the decisions of the University for their personal financial gain while at the same time allowing the University to take advantage of contracts that are advantageous to the citizens of North Carolina and to the University and also avoiding having service to the University be so restrictive that persons with substantial financial interests will be reluctant to serve.
