Policy Discussion 2:

Campus Centers & Institutes
Appropriations Act of 2014, Section 11.1(a)

The Board of Governors and the campuses shall consider reducing State funds for centers and institutes, speaker series, and other nonacademic activities to do either or both of the following:

- Provide a State match for Distinguished Professors Endowment Trust Fund ($10M).
- Implement provisions of The University of North Carolina Strategic Plan ($5M).
Centers & Institutes: Outline

- Definition and Purpose
- UNC Policy
  - Formation
  - Review
  - Discontinuation
- Analysis
| Organized units designed to: |  
|-----------------------------|---|
| Bridge departmental, disciplinary, and institutional boundaries to facilitate collaboration & problem-solving |  
| Enhance the academic mission of the University in research, service, and instruction |  
| Provide infrastructure and services to support education, research, scholarship, and engagement |
Centers & Institutes: Purpose

**Research**
- Solve problems that require a multi-disciplinary approach
- Facilitate academic, industry, and government partnerships
- Enhance competitiveness for large federal programs
- Provide nimble and innovative structure
- Train students to be the next generation of emerging & high tech leaders

**Instruction**
- Provide a bridge for the campus and community
- Enrich the home departments of faculty and students

**Service**
- Enhance competitiveness for large federal programs
- Facilitate academic, industry, and government partnerships
- Provide a bridge for the campus and community
- Enrich the home departments of faculty and students
There are 237 centers and institutes across all 16 university campuses.

Research institutions have the most:
UNC-CH – 80, NCSU – 48, ECU – 19, UNCG – 18, NCA&T – 17, UNCC – 11

All other campuses have fewer than 10 each.
UNC Policy Manual 400.5[R]

- First enacted 1981, subsequent revisions, repealed and replaced 2009
- Planning, establishing, reviewing, and disestablishing Centers and Institutes in The University of North Carolina
- Each campus is required to have policies and procedures based on the principles outlined in 400.5[R]
Permission to Plan
• Relevance to university mission, why a center structure is needed, non-redundant, potential funding; approval by campus leadership

Planning Phase
• Identify participants, funding, space, and other parameters for success

Permission to Establish
• Name, organizational structure, director, impact on university, designation as research, service, or instructional, immediate and projected operating needs, accountability plan; final approval by campus leadership
Campus leaders receive periodic progress reports & conduct regularly scheduled external reviews.

- Alignment with missions
- Success in accomplishing stated objectives
- Sound fiscal status and practices
- Director performance

Centers & Institutes: Review

- Continuation
- Continuation with modification
- Discontinuation
Centers & Institutes: Discontinuation

Why?

- Lack of fiscal resources for sustainability
- Termination of supporting grant or award
- Lack of fit with departmental, college, or institutional mission
- Unnecessary duplication

How?

- Campus leadership approval of discontinuation
- Orderly phase-out period

How many?

- From 2009 through 2014, 70 centers have been discontinued and 26 established.
Since 2009, UNC has been asked to provide financial information to the legislature and Governor’s office on centers and institutes.

Specific reductions to centers and institutes have been proposed since that time.

Ultimately, centers and institutes have become one of the standard areas for campuses to examine in implementing management flexibility reductions.

GA requested additional data from campuses this summer to provide the most up-to-date information.
64% of centers and institutes are degree-related.  
65% have a primary research mission.

Centers and institutes are supported in three ways:

- General Fund
- Outside funding
- In-kind support
For FY 2013-14, UNC centers and institutes received:

- $68.9M in General Fund funding
- $555.6M in outside receipts*
- $14.0M in in-kind support

*Additional grant awards may be attributable to centers and institutes, but budgeted in departmental budgets.
Outside receipts provide most center and institute funding.

- **8:1 outside receipts to General Fund for all centers**
- **5:1 for centers that receive General Fund support**
Overall funding from the General Fund decreased 40% since FY 2008-09.
The average amount of General Fund support per center/institute in FY 2013-14 was $594,390.

Degree-related centers receiving funding from the General Fund were larger than centers that were not degree-related.

Grants frequently require matching funds.

- **Example:** Next Generation Power Electronics Manufacturing Innovation Institute (PowerAmerica) at NCSU

44 of the 116 centers receiving General Fund appropriations use those appropriations as match for grants.
Centers and institutes:

- Are formed and dissolved with established policies;
- Align with the University’s academic mission of instruction, research, and service; and
- Provide a vehicle for external partners to join with UNC to address global and community issues.
