### MINUTES

September 11, 2024 at 11 a.m. Via Videoconference and PBS North Carolina Livestream UNC System Office 223 S. West Street, 1809 Raleigh, North Carolina

This meeting of the Committee on Audit, Risk Management, and Compliance was presided over by Chair Mark Holton. The following committee members, constituting a quorum, were also present in person or by phone: Woody White, Art Pope, Kirk Bradley, Carolyn Coward, and Kathryn Greeley.

Chancellors participating were Darrell Allison and Bonita Brown.

Staff members present included Fred Sellers, Brad Trahan, and others from the UNC System Office.

### 1. Call to Order and Approval of OPEN Session Minutes (Item A-1)

The chair called the meeting to order at 11 a.m. on Wednesday, September 11, 2024. The open session minutes from the May 22, 2024, meeting were approved by unanimous consent.

### 2. Approval of Annual CARMC Report 2023-2024 (Item A-2)

Fred Sellers, vice president of safety & enterprise risk management, presented the Annual CARMC Report for Academic Year 2023-24. The report was approved by the committee for submission to the full Board.

**MOTION:** Resolved that the Committee on Audit, Risk Management, and Compliance approve the CARMC Annual Report and recommend it to the full Board of Governors for a vote through the consent agenda.

### Motion: Art Pope Motion carried

### 3. Approval of CARMC and IA Charters Appendix A & B (Internal Audit) (Item A-3)

Fred Sellers and Carol Harris briefed the committee on updates to the CARMC Charter, which includes the Internal Audit Charter. Updates were presented to and approved by the committee.

**MOTION:** Resolved that the Committee on Audit, Risk Management, and Compliance approve the CARMC Charter and recommend it to the full Board of Governors for a vote through the consent agenda.

Motion: Art Pope

### **Motion carried**

### 4. Approval of FY25 Annual Internal Audit Plan for the System Office (Item A-4)

Jennifer Myers, UNC System Office chief audit officer, presented the FY25 Annual Internal Audit Plan for the System Office. The internal audit team conducted a risk assessment as part of the process to develop the annual audit plan for the 2024 fiscal year.

### 5. FY24 Annual Year-End Report from Internal Audit (Item A-5)

Carol Harris, NCSSM's chief audit officer, presented the FY24 Annual Year-End Report from Internal Audit. The committee approved the projects from the fiscal 2024 audit plan in September 2023 and identified their status as of June 30, 2024—the internal audit year-end report, which includes the annual disclosures required by the Institute of Internal Auditors Standards.

This item was for information only.

### 6. ERM Annual Report (Item A-6)

Bryan Heckle, director of enterprise risk management, presented the Enterprise Risk Management Annual Report. The committee received an update on the top enterprise risks identified by the UNC System Office and the constituent institutions. The UNC System and its constituent institutions have demonstrated growth and development in their enterprise risk management (ERM) programs.

This item was for information only.

### 7. Implementation Update on Cybersecurity Recommendations and Shared Services (Item A-7)

Dr. Maurice Ferrell, vice president of information technology and chief information officer, briefed on the implementation of key legislative initiatives funded by the General Assembly. The initiatives discussed included an end-point protection solution that has been implemented at all UNC System schools, an event and log management solution that will be implemented in all schools by December 2024, and a vendor risk management platform that allows all schools to provide input and quickly view vendors that have met the System security standards.

This item was for information only.

#### 8. Adjourn

There being no further business, and without objection, the meeting adjourned at 12 p.m.

Art Pope, Secretary

### AGENDA ITEM

A-2. Hurricane Helene Emergency Response Resiliency......Will Ray North Carolina Emergency Management

- Situation: The purpose of this item is to provide the Committee on Audit, Risk Management, and Compliance (CARMC) an update on the response and recovery in western North Carolina in response to Hurricane Helene. The North Carolina Division of Emergency Management supported the impacted region, which included four UNC System constituent institutions (Appalachian State University, the University of North Carolina Asheville, Western Carolina University, and the North Carolina School of Science and Mathematics Morganton campus), several UNC System affiliated entities (including UNC Health, PBS North Carolina, and the North Carolina Arboretum), and facilities of other UNC System institutions.
- **Background:** On September 27, 2024, Hurricane Helene struck western North Carolina, bringing unprecedented levels of damage and destruction. Based on preliminary estimates, the storm resulted in more than \$48 billion in damage, including billions in economic impact; produced approximately 1,400 landslides; damaged over 160 water and sewer systems, at least 6,000 miles of roads including I-40, almost 1,400 bridges and culverts, and an estimated 126,000 homes; and left one million customers without power. Most tragically, North Carolina state officials have reported 96 deaths to date from Hurricane Helene.
- Assessment: The president of the United States declared a major disaster for the State of North Carolina on September 28, 2024, as a result of Hurricane Helene. Currently, the declaration covers 39 counties and the Eastern Band of Cherokee Indians. The declaration authorized the Federal Emergency Management Agency (FEMA) to provide assistance to individuals impacted by the disaster as well as support for public entities and nonprofits. Through FEMA's Public Assistance Program, reimbursement or direct federal assistance is available to eligible state, local, tribal, and certain private-nonprofit organizations for disaster-related expenses. An unprecedented number of federal, state, and local agencies, volunteer organizations, community groups, and individual citizens have been engaged in disaster response and recovery efforts in western North Carolina, including mutual aid support by all UNC System institutions.

Action: This item is for information only

### AGENDA ITEM

- May 2006, the FBI and OSI Office of Special Projects (PJ) initiated a joint investigation into Dr. James Reece Roth, an electrical engineering professor at the University of Tennessee
- Roth disclosed technical data including 15 different defense articles provided to a citizen of the People's Republic of China in violation of the Arms Export Control Act. - plasma actuators
- In July 2009, the court sentenced Roth to four years in prison for violating the Arms Export Control Act.
  - A U.S. Attorney involved in the case noted, "This case should send a stern warning to those who would betray the trust of our nation by violating the export control laws by providing our military information to foreign nationals."

## **Research Security Program Requirements**

### Export Controls

- Technology Controls
- Trade Sanctions

### **Travel Security**

- Training
- Tracking

### Disclosures

- External Affiliations
- Foreign Gov Talent Programs

## Cybersecurity

- Basic Cybersecurity Hygiene
- Enhanced Safeguarding for Controlled Research

## **UNC-Chapel Hill Programs**

International Travel Pre-review

Visa Sponsorship Review

**IP** Disclosures

Technology Control Plans

Other support and enhanced disclosure requirements

### **Dimensions:**

- Search researchers against their current publications we assess the sensitivity of the published work itself, including any research that presents direct or indirect military use and application.
- Compare funding information to researchers' CVs to illuminate any sources of funding from countries of concern.
- Review listed collaborations to determine any work conducted with countries or entities of concern.
- When we have "issues" I often search through individual publications to review the listed collaborations, sources of funding, and any other noted linkage to countries or entities of concern. This would happen on a more micro-level as opposed to the first three that are broad overviews of the researchers' portfolios.

### **NC STATE UNIVERSITY**

### Export Controls

- Technology Control Plans
- Required Training for all participants on Controlled Projects
- Travel Reviews for Export Control requirements
- Visa Sponsorship reviews
- Restricted Party Screening
  - Will not enter into agreements with Entities of Concern

### **Travel Security**

- Travel Reviews for Export Control requirements
- Travel Security Training
- Mandatory review for Countries of Concern

### Conflict of Interest and Commitment

- Revised COI/COC Regulation
- Codifies Research Security Review for External Activities
- Prohibits
  - Engaging with Entities of Concern
  - Participation in Malign Foreign Talent Requirement Programs

### Cybersecurity

- CUI Compliant Environment
- Cybersecurity Baseline in anticipation of NSPM-33 requirement for all federally funded research

In Practice

Under Development

Suggested System Office Actions that can support Research Security

Coordination of Baseline Cybersecurity Standards Across UNC System

• To assist all constituent universities in achieving the basic cybersecurity standards for federally funded research

### Develop Research Security Training for Use Across UNC System

• Research Security Training will be required for federally funded researchers. Deploying training resources at the System level would allow for consistent messaging and would be more efficient

### AGENDA ITEM

A-4. Cybersecurity Partnership and Outreach ......Shannon Tufts

- Situation: The purpose of this item is to provide the Committee on Audit, Risk Management, and Compliance (CARMC) with an overview of cybersecurity partnership and outreach efforts within the UNC System, including implementation and enhancement of prior security recommendations to improve and mature the information technology controls and information security posture for the UNC System Office and each institution.
- **Background:** Building upon the legislatively funded strategic cybersecurity investments designed to create improved cybersecurity postures across all UNC System institutions, the UNC System Office has intentionally focused on creating and maintaining cybersecurity partnerships and outreach services, including designing and offering tailored cybersecurity services for interested institutions. In addition, the System is committed to identifying best practices occurring across UNC System institutions for awareness and knowledge sharing, including routine engagement of students and faculty expertise in the field of cybersecurity. Through routine assessment and impact analysis of efforts undertaken to support and enhance the UNC System's cybersecurity posture, the System Office is continually identifying opportunities for partnership and outreach extension.
- Assessment: This portion of the presentation focuses on three key areas of expanded cybersecurity partnership and outreach: expanded adoption of the UNC System Next Generation Managed Detection and Response (NextGen MDR) offering; new System Office cybersecurity capabilities available to UNC institutions upon request; and enhanced utilization efforts related to the Security Information and Event Management (SIEM) solution facilitated by cross-campus collaboration, System Office student intern expertise, and vendor support. The final item included in the presentation highlights existing and emerging student and faculty involvement in cybersecurity efforts at individual UNC institutions and the UNC System Office.

Action: This item is for information only.

### A-4: Cybersecurity Partnership and Outreach Expanded Offerings and Support for All UNC Institutions

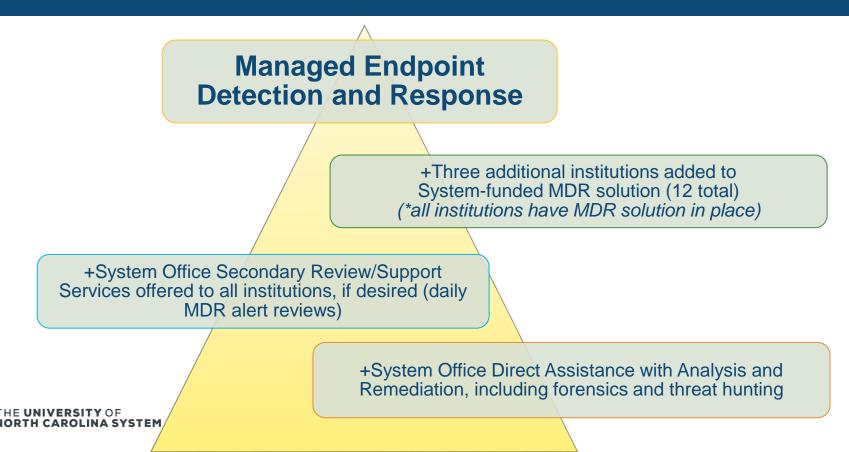

2024

Dr. Shannon Tufts

Senior Advisor on Cybersecurity, UNC System NC Joint Cybersecurity Task Force Member Professor, UNC School of Government

### Key Initiative #1: Managed Endpoint De<u>tection</u> and Response Plus+

### Key Initiative #2: Excellence in Action: Collaboration and Community

### Expertise Developed: UNC System Office Student Intern

- Developed Splunk expertise while working at the System
- Creating guidance and dashboards to share with other UNC institutions
- System office staff actively using Splunk dashboards for reviewing security posture

### **Expertise within UNC Institutions**

- Multiple education sessions held by Splunk experts residing within UNC institutions
- · Best and promising practices shared through multiple channels weekly
- By our campuses for our campuses

### Expertise from Splunk

- · Splunk team provides additional training opportunities regularly
- Splunk team has been actively supporting WNC efforts, including campus support when requested
- · Subject matter experts working with campuses directly

### Key Initiative #3: Student Talent Pipelines & Faculty Engagement

### UNC System/Campus Offerings

IT/cybersecurity students at all institutions have opportunities to work in their field within the campus environment

- Faculty-led initiatives supporting local businesses with various cybersecurity-related tasks
- UNC System Office student interns and faculty member on loan to expand cybersecurity knowledge/services to all UNC institutions
- Student positions within the IT Helpdesk/Support Services arena across the System
- Preliminary discussions to create cross-training/internship-sharing program for cybersecurityfocused/interested students (focus on real-world applications of cybersecurity incident investigation and response, forensics, and threat hunting)

### NC Information Technology Strategy Board (ITSB): Cybersecurity Education Pathways Program

- Collaboration between the NC Department of IT, NC Community College System, and the University of North Carolina System to increase cybersecurity professionals across the state from all higher education institutions
- Leveraging existing entities such as the Center for Cyber Defense Education (UNCW), the Cyber Defense Education Center (Fayetteville Technical Community College), and other core higher education institutions

### Q&A

### AGENDA ITEM

A-5. Summary of the Systemwide FY24 Internal Audit Activities .....Jennifer Myers

### Situation:Annually, the Committee on Audit, Risk Management, and Compliance (CARMC)<br/>reviews a summary of campus Internal Audit activities from the previous fiscal year.

**Background:** In accordance with the CARMC Charter, the committee reviews an annual summary of the work performed by the Internal Audit activities overseen by the audit committee of each constituent institution's board of trustees. This summary provides an overview of audits, reviews, investigations, or special assignments completed by the Internal Audit department of each constituent institution and the UNC System Office, and notes material reportable conditions and the status of resolution.

Assessment: Audit committees at each constituent institution provide oversight for the work of the Internal Audit function. Annually, each chief audit officer and audit committee chair confirms to the UNC System Office that the audit committee has met its respective oversight responsibilities. One key responsibility of the chief audit officer is to manage the Internal Audit activity to ensure it adds value to the institution. Establishing a risk-based Internal Audit Plan, executing the approved Internal Audit Plan, and ensuring timely reporting to the audit committee is of paramount importance in meeting the Institute of Internal Auditors (IIA) *Standards*.

During the fiscal year, audit plans may require adjustment to meet the changing needs of the institution or to respond to emerging risks or investigative complaints. The chief audit officer responds to those needs and reports significant changes to their Internal Audit Plans to their respective board of trustees' audit committee.

Between July 1, 2023, and June 30, 2024, Internal Audit departments across the UNC System completed risk assessments, audits, advisory services, audit finding follow-ups, and investigations resulting in 187 reports (*Attachment 1*). Those Internal Audit activities produced 277 findings (*Attachment 2*) for improvements to internal controls. Corresponding management corrective actions were identified and agreed upon by university leadership.

Action: This item is for information only.

### Boards of Trustees Audit Committee Activities for the 2024 Fiscal Year

Article 79 of Chapter 143 of the General Statutes requires that each director of internal auditing report to a governing board if one exists within the entity. Additionally, professional standards promulgated by the Institute of Internal Auditors require that each chief audit officer report functionally to the board of trustees' audit committee. Annual Audit Plans are approved by each institution's audit committee, and results of completion of those approved plans are discussed with the committee members at periodic intervals throughout the year. To confirm the annual activities of the audit committees, the chair of each board of trustees' audit committee, including the chair of the Board of Governors Committee on Audit, Risk Management, and Compliance (CARMC), confirms each committee's compliance with the following:

- 1. Met with and updated the board of trustees (BOT) audit committee at least four times this past fiscal year.
- 2. Attended any scheduled financial audit exit conference conducted by the North Carolina Office of the State Auditor (OSA).
- 3. If applicable, reviewed and discussed the results of any other audit performed and report/management letter (i.e., investigations, Statewide Federal Compliance Audit Reports, etc.) issued by the OSA with either representatives of the State Auditor and/or appropriate campus official.
- 4. Reported administratively to the chancellor, or designee, with a clear and recognized functional reporting relationship to the chair of the BOT audit committee.
- 5. Constructed the Audit Plan in consideration of risk, including information security risk, potential internal control deficiencies, and any audits/emerging issues outlined by the University of North Carolina System Office.
- 6. Strived to ensure that all internal audits were planned, documented, and executed in accordance with professional standards.
- 7. Forwarded copies of both the approved Audit Plan and Internal Audit Reports to the North Carolina Council of Internal Auditing in the prescribed format.
- 8. Provided the UNC System Office with a summary of audit activities performed each fiscal year.
- 9. Updated the BOT audit committee on the completion/status of the Audit Plan.

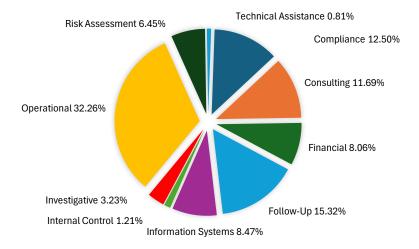

Each audit committee further attests:

1. The audit committee charter defines appropriate roles and responsibilities, including the committee's oversight of the institution's information security program. These responsibilities also include the assurance that the institution is performing self-assessments of operating risks and evaluations of internal controls on a regular basis.

### Planned Engagements by Category for the 2024 Fiscal Year

Annual Internal Audit priorities align with the institution's objectives and address the risks with the greatest potential to affect the institution's ability to meet those objectives. Once an institution's plan is drafted, it is forwarded to campus leadership for review and approval. Ultimately, the plan is presented to and approved by the institution's board of trustees' audit committee. As per the Board's CARMC charter, these plans are then forwarded to the UNC System Office for CARMC review.

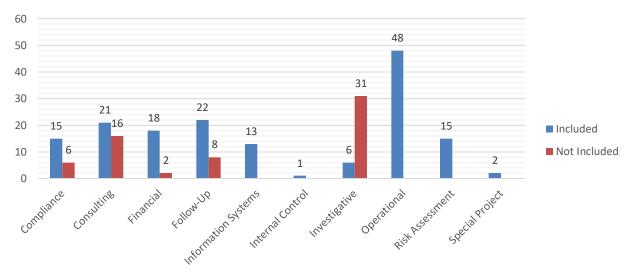

In November 2023, institutional Internal Audit Plans that included 248 engagements planned for the 2024 fiscal year were approved by the CARMC. Planned assurance and consulting assignments ranged from financial, compliance, and operational audits to reviews of general internal controls as well as information system controls. Based on the chart presented below, much of the planned work was around operational audits, followed by follow-ups, and then compliance audits.

### FY'24 APPROVED ENGAGEMENTS

\*Excludes special projects, other hours, and administration hours.

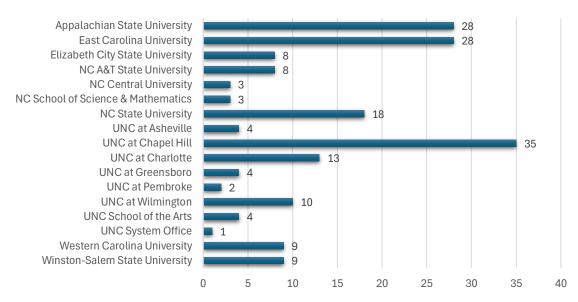

Audit Plans are dynamic. New issues and priorities arise during the year. In addition, investigative work is typically unknown and must be incorporated into the work of the Internal Audit office. During FY24, the actual audit engagements completed included both planned and unplanned projects. The chart below shows the 224 engagements completed during the FY24 timeframe and whether they were included in the original Audit Plan.

### **ENGAGEMENTS COMPLETED IN FY'24**

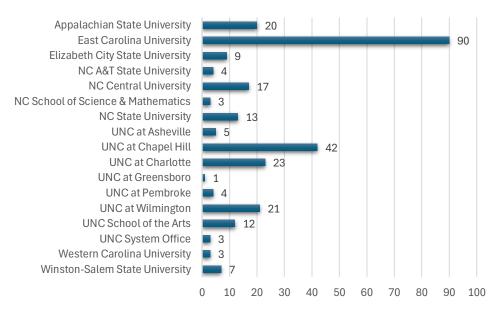

### **Audit Report Summary**

During FY24, the UNC System Internal Audit organization completed 187 reports. The listing of reports is provided as an attachment (see *Attachment 1*).

#### **REPORTS ISSUED IN FY'24 BY INSTITUTION**

The 187 reports issued in FY24 resulted in 277 audit findings. A summary of these findings is provided as an attachment (see *Attachment 2*).

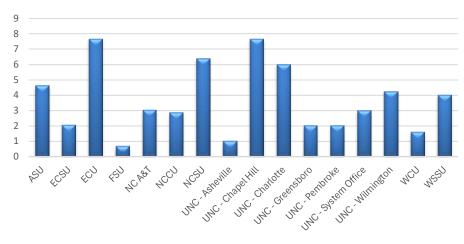

#### **FINDINGS ISSUED IN FY'24 BY INSTITUTION**

Due to audit process differences, some institutions may have more findings than others. For example, one institution may have six instances of a control weakness and list this as one finding while another institution may list those six instances as six findings. Additionally, some institutions report on consultations (typically with no findings), while other institutions do have a formal report for consultations.

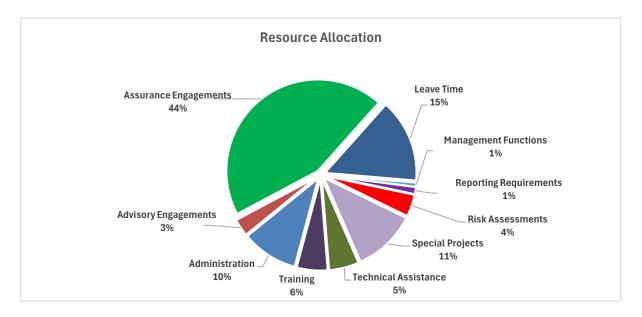

### **Internal Audit Resources**

Total Internal Audit staff across the system totaled 58.75 FTE during FY'24.

**Professional Audit Staff Headcount** 

Internal Audit resources were allocated to the following activities and engagements during FY24.

#### Appalachian State University (28)

- 1. Compliance: Fixed Assets Quarterly
- 2. Compliance: Fixed Assets 2023
- 3. Compliance: Fixed Assets 2024

### AGENDA ITEM

| A-6. Summary of the UNC System FY25 Annual Audit Plans |
|--|
|--|

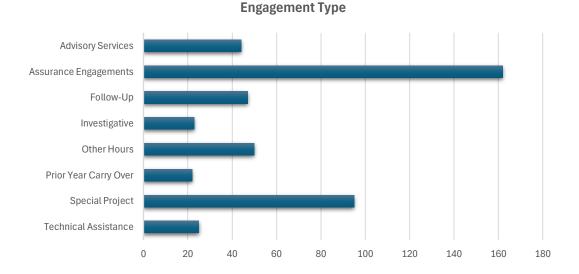

- **Situation:** The UNC Systemwide FY25 Internal Audit Plans are presented for review by CARMC.
- **Background:** Section 301 of *The Code, The Standing Committees' Jurisdiction,* requires this committee to review a summary of the Internal Audit Plans of the constituent institutions. As part of the policy, each constituent institution is to submit its Internal Audit Plan as approved by the institution's board of trustees. The CARMC Charter requires that this committee review an annual summary of the Internal Audit Plans submitted by each constituent institution and the UNC System Office.
- **Assessment:** A summary and individual institution Internal Audit Plans are attached for the committee's review (see *Attachment 3*).
- Action: This item is for information only.

### **Planned Internal Audit Effort for Fiscal Year 2025**

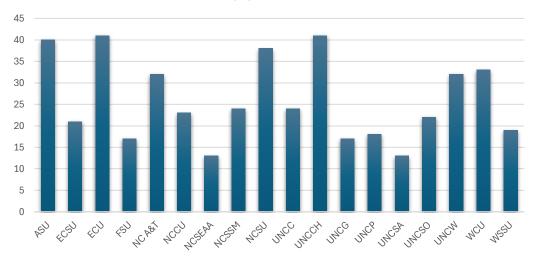

Annual Internal Audit Plans are developed at each institution from a comprehensive risk-based analysis of specific institutional operations. Response to current risks is reflected in the plans. These plans are then reviewed and approved by the institution's board of trustees. We have summarized the FY25 planned engagements, which include operational audits, compliance audits, information system control audits, consulting engagements, and follow-ups on prior recommendations. Based on the institutionally approved Internal Audit Plans, the chart below shows the breakdown of engagements by type across the system.

The chart below shows the total number of engagements by type for FY25.

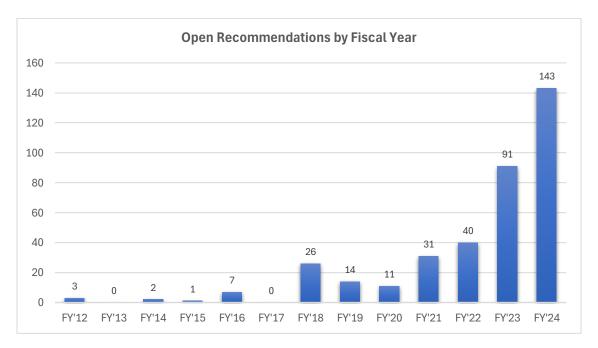

This chart shows the total number of engagements planned for FY25 by each institution.

Planned Engagements by Institution

### Follow-Up on Open Audit Recommendations

As of June 30, 2024, there were a total of 369 open recommendations from prior fiscal years that will be followed up across the system. As noted in the planned engagements, follow-up engagements are conducted to assess the implementation and effectiveness of corrective actions taken because of prior audit work. The chart below breaks down each open recommendation by the corresponding fiscal year it was originally reported. In some cases, open audit recommendations can be implemented quickly while other recommendations may involve long-term actions such as system changes or implementing new systems. In addition, once a change is implemented, Internal Audit will often need to allow the processes to operate for a period of time before they can assess whether the actions resolved the identified underlying issues. The System Office will be following up with the institutions on those items that are older to see if any of these are high risk and if there are issues preventing these from being closed.
