

6. UNC Degree Program ProposalsCourtney Thornton

Situation: East Carolina University requests discontinuation of the following degree programs:

- BA in Art History and Appreciation (CIP 50.0703)
- BS in School Health Education (CIP 13.1307)

Background: Per UNC 400.1, the campuses and UNC General Administration review degree program offerings and bring periodic discontinuation recommendations to the UNC Board of Governors.

Assessment: Discontinuation of the program is recommended.

Action: This item requires a vote.

**Request for Authorization to Discontinue the
Bachelor of Arts in Art History and Appreciation at
East Carolina University**

East Carolina University has requested that its BA in Art History and Appreciation (CIP 50.0703) be discontinued.

The BA in Art History and Appreciation is being discontinued due to low productivity. The five students currently enrolled will be able to progress towards degree completion via the teach-out plan. Coursework in art history will still be offered to support the BFA in Art and BFA in Art Education degree programs; therefore, existing faculty and staff will not be reassigned or discontinued.

Recommendation: It is recommended that the Board of Governors approve East Carolina University's request to discontinue the BA in Art History and Appreciation.

**Request for Authorization to Discontinue the
Bachelor of Science in School Health Education at
East Carolina University**

East Carolina University has requested that its BS in School Health Education (CIP 13.1307) be discontinued.

The BS in School Health Education is being discontinued due to low productivity. The five students currently enrolled will be able to progress towards degree completion via the teach-out plan, as the needed coursework will continue to be offered. The discontinuation will result in the reassignment of 1.5FTE faculty to teach in the BS in Public Health Studies.

Recommendation: It is recommended that the Board of Governors approve East Carolina University's request to discontinue the BS in School Health Education.
