Minimum Requirements for First-time Undergraduate Admissions Minimum Course Requirements

In addition to the requirement that students should hold a high school diploma or its equivalent, the University of North Carolina Board of Governors has, since 1988, established minimum course requirements for undergraduate admission, including a fourth unit of mathematics. These requirements are summarized below.

Six course units in language, including:

- four units in English emphasizing grammar, composition, and literature, and
- two units of a language other than English.

Four course units of mathematics, in any of the following combinations:

- common core I, II, III
- algebra I and II, geometry, and one unit beyond algebra II,
- algebra I and II, and two units beyond algebra II, or
- integrated math I, II, and III, and one unit beyond integrated math III.

(The fourth unit of math affects applicants to all institutions except the North Carolina School of the Arts.) It is recommended that prospective students take a mathematics course unit in the twelfth grade.

Three course units in science, including:

- at least one unit in a life or biological science (for example, biology),
- at least one unit in physical science (for example, physical science, chemistry, physics), and
- at least one laboratory course.

Two course units in social studies, including one unit in U.S. history, but an applicant who does not have the unit in U.S. history may be admitted on the condition that at least three semester hours in that subject will be passed by the end of the sophomore year.

I. Articulation with Graduation Requirements in the North Carolina Public High Schools

Following the board's change in minimum course requirements, the North Carolina State Board of Education revised the requirements for high school graduation by offering four courses of study: (1) career, (2) college tech prep, (3) college prep, and (4) occupational. These requirements are summarized below. Option 3 tracks the UNC minimum course requirements closely.

II. Minimum Admissions Requirements (MAR)

All applicants for first-time admission must meet minimum high school GPA and SAT/ACT scores. The minimum SAT (mathematics and critical reading) required for admissions is 800 or a composite ACT score of 17. The minimum high school GPA for first-time undergraduates is 2.5 (weighted).

III. Chancellor's Exceptions

The maximum number of chancellor's exceptions is limited to one percent (1%) of the total number of applicants accepted as first-time undergraduates each year. A chancellor's exception may be applied to the SAT/ACT minimum requirement and/or the HSGPA minimum requirement.

IV. Graduates of Cooperative Innovative High Schools (Early College)

Beginning with the 2016-2017 admissions application cycle for enrollment in the 2017-2018 academic year, each UNC constituent institution must offer to any student who graduated from a cooperative innovative high school program with an associate degree and who applies for admission to a constituent institution the option of being considered for admission as a freshman or as a transfer student.

The constituent institution shall also provide written information to the student regarding the consequences that accompany each option and any other relevant information that may be helpful to the student when considering which option to select.

Beginning March 1, 2017, the Board of Governors shall report annually regarding the number of students who graduated from a cooperative innovative high school program with an associate degree and which option was chosen by those students when applying for admission to a constituent institution.

V. Other Admissions Requirements

All applicants for admission to any campus, except those exempted by current campus and/or UNC policies and regulations, must submit a standardized test score. For additional information on admissions see 700.1.1.1 [R], 700.1.1.2 [R], and 700.7.1 [R].

VI. Notification of Stakeholders and Educational Policymakers

The president is directed to develop plans and further recommendations to inform key stakeholders and education policymakers of the changes in requirements. The president may establish regulations to implement this policy.
