APPENDIX L  
**UNC System Office Internal Audit Plan**  
**Fiscal Year 2023**

**Summary of the Planned Services**

This document represents the initial internal audit plan; however, it is a dynamic document that may change during the year as circumstances warrant. Requests from management or the Board of Governors, unexpected allegations, or other investigations, and/or significant changes to the organization or its operations can alter the needs and priorities. Thus, if necessary, the audit plan may be adjusted to meet the evolving needs. The planned hours and projects for this annual plan cover work from July 2022 to June 2023. The estimated hours include an allocation of time for one Internal Audit Director, one team lead, one staff auditor, and up to ten internal audit interns.

**A brief description of the projects are as follows:**

**Prior Year Carry Over:** Prior Year Carry Over includes the following internal audit projects from the prior year audit plan that have final reports to be released and/or processes to be completed before the start of fiscal year 2023 activities:

**There were no carry-over audits this year.**

**Annual Risk Assessment Development:** As part of the annual process to prepare an audit plan for fiscal year 2023, internal audit conducted a risk assessment. This entails identifying and rating risks based on feedback from management, current trends, previous audit results, and other criteria. The result is this risk-based audit plan, as required by the Internal Audit Charter and The Institute of Internal Auditors' International Standards for the Professional Practice of Internal Auditing (Standards).

**Assurance Engagements:**

**FY23 Operational: *Audit of Organizational Continuity:*** The UNC System Office executes the Board of Governors' objectives and provides System-wide leadership in academic affairs, business and financial management, long-range planning, student affairs, research, legal affairs, and government relations. The internal audit team will review the existing controls in these crucial units to improve organizational continuity by identifying key personnel whose absence increases the likelihood that the UNC System Office will not achieve its strategic plan. Additionally, the internal audit team will determine if current departmental policies and procedures exist, and if business process documentation is in place to allow employees to perform their duties should essential personnel depart. Finally, the internal audit team will identify the units that have not begun a business continuity strategy to recommend solutions to reduce future business operation disruptions.

**FY23 Financial: *Audit of Budget and Finance Processes:*** Budget and Finance is responsible for processing accounts payable, accounts receivable, travel, and other administrative activities in support of the UNC System Office's business objectives. The internal audit team will conduct a review of the controls over the financial business process to provide reasonable assurance that processes are optimized for maximum operational efficiency and effectiveness.

**FY23 Information Systems: *Audit of Information Systems Policies and Procedures:*** Information Systems is responsible for managing the information systems and cybersecurity activities to protect the confidentiality, availability, and integrity of information assets. The internal audit team will conduct a gap analysis on all applicable information systems policies and procedures and make policy recommendations based on internationally recognized industry standards.

APPENDIX L  
**UNC System Office Internal Audit Plan**  
**Fiscal Year 2023**

**FY23 Compliance:** *Audit of Compliance with Requirements for use of Governor's Emergency Education Relief (GEER) Fund and American Rescue Plan Act (ARPA) Funds:* In response to the pandemic, the North Carolina Governor and General Assembly granted the UNC Board of Governors federal financial assistance to support the UNC System Office and its constituent universities with the necessary funding to continue providing educational services to their students, social and emotional support for both students and faculty, and additional funding to safeguard education-related jobs. The internal audit team will examine the UNC System Office and its constituent institutions' compliance with the Department of Education, the US Treasury, and/or the North Carolina Pandemic Recovery Office's requirements for the use of GEER and ARPA funds.

**Consulting Engagements:**

**FY23 Consultation Engagements:** As needed, internal audit is available to provide technical advice and other services to management and staff as they consider operational changes, re-evaluate current practices and/or develop new processes and procedures. The objective is to provide proactive feedback, as needed, to help ensure effective controls and operating procedures are designed and, where applicable, promote compliance with state, federal, and UNC System policies. In addition to technical advice, internal audit performs consulting services to provide feedback on the UNC System operations. Some specific advisory services that were requested by management for the FY23 fiscal years includes the following:

- **FY23 Consultation Engagements – FY23 Information Systems:** *Consult on Information Systems Policies and Procedures:* Internal audit will provide advisory services to information systems by interpreting the National Guard Cybersecurity Assessment (JTF) results to assist with strengthening cybersecurity controls in the UNC System Office.
- **FY23 Special Project - Data Analytic Dashboards:** The internal audit team will develop at least two Data Analytic Dashboards to aid government affairs and the chief operating officer in answering two primary questions: is the UNC System Office compliant with respect to timely submission of reports to the General Assembly, and does the UNC System Office overshare information by engaging into contracts without chief information security officer approval? By capturing all reports due to the General Assembly with due dates, and by compiling all contracts to review for provisions pertaining to information sharing, these dashboards will provide visibility into these operational processes to answer these two primary questions and determine the UNC System Office's compliance with state law and obligations to share information due to contractual terms.

**Technical Assistance:**

- **FY23 Information Systems:** Internal audit will provide advisory services to information systems by embedding with the National Guard Cybersecurity Assessment (JTF) team to observe them conduct the cybersecurity assessment of the UNC System Office Information Technology infrastructure, identify gaps in the assessments, and consider employing new techniques for future IT audit engagements.

APPENDIX L  
**UNC System Office Internal Audit Plan**  
**Fiscal Year 2023**

- **FY23 System Office Divisions:** Internal audit will provide advisory services to various System Office departments and units as needed. Finance, Information Systems, Human Resources, Academic Affairs, Strategy and Policy, Government Affairs, University Communications, Office of the Secretary, University Advancement, Safety & Emergency Operations, and UNC Affiliates (PBS NC, UNC Press, etc.) are among the UNC System units that receive technical advice from Internal Audit.

**Follow-up on Management Corrective Actions:**

**FY23 Monitoring and Reporting of Management's Corrective Actions:** The internal audit team will obtain regular updates from management regarding the status of corrective actions taken to mitigate risks identified in prior audits (from both internal and external audits). The internal audit team will review and assess what audit tests are necessary to verify the status of actions taken. A summary report will be shared with senior management and the Committee on Audit, Risk Management and Compliance to keep them apprised of the progress of management's corrective actions.

**Special Projects:**

**FY23 Special Project – The Perils of Email Overuse:** The internal audit team will create a presentation for legal affairs to convey to UNC System Office employees the dangers of excessive use of email. The purpose of the presentation is to educate employees on the top three risks associated with excessive email usage, the five best practices for email use, and to reiterate rules such as the Newspaper rule, Confidentiality Rules, Phishing, and Business Email Compromise. Once approved by legal affairs, this presentation will be included in the training delivered to personnel annually.

**FY23 Special Project - Internal Audit Internship Program:** The internal audit team has established a program to provide students with the opportunity to conduct assurance and consulting engagements for the UNC System Office, Universities, and State agencies. This internship program provides entities with extra auditing resources and students gain invaluable hand-on experience in internal auditing. The director of internal audit is responsible for supervising engagements, recruiting students to participate in the program, coordinating with chief audit officers on assignment selection, as well as promoting and managing the program.

**Internal Shared Services:**

**FY23 Internal Audit Shared Services:** Under the Internal Audit Director's supervision, up to twenty interns will conduct assurance and consulting engagements with the System Office, universities, and state agencies per year. The partnership with these organizations will begin in September 2022. UNC System Office of Internal Audit also serves as the chief audit officer for NCSSM and NCSEAA. Internal audit shall complete engagements in accordance with the memorandum of understanding for these entities.

**Other Hours:**

**FY23 Other/Unplanned:** - Internal audit has reserved time for potential investigations, consults, special projects, technical advisory services, and/or other needs that are anticipated to arise throughout the year. Specifically, under the assurance engagements, some unscheduled time has been left for needs that may develop because of unforeseen circumstances or special requests from the president.

APPENDIX L  
**UNC System Office Internal Audit Plan**  
**Fiscal Year 2023**

Internal audit will incorporate an evaluation of how the organization communicates, directs, reinforces, and monitors adherence to its standards and policies. This will be used to evaluate the culture and structure of governance and, if necessary, to make recommendations for enhancing the governance process.

THE UNIVERSITY OF  
NORTH CAROLINA SYSTEM

UNIVERSITY OF NORTH CAROLINA SYSTEM OFFICE

Internal Audit Charter

## A. Purpose, Mission and Scope of Work

The University of North Carolina System Office (UNC System Office) is required to establish a program of internal auditing pursuant to G.S. 143-746. The UNC System Office's internal audit function shall be accountable to the Board of Governors through the Committee on Audit, Risk Management, and Compliance (CARMC) and the president.

The purpose of internal audit is to provide independent and objective assurance and consulting services to add value and improve operations of the UNC System Office. The mission of internal audit is to enhance and protect organizational value by providing risk-based and objective assurance, advice, and insight. Internal audit helps the UNC System Office accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, internal control, compliance, and governance processes. It provides a central point for coordinating oversight of activities that promote accountability, integrity, efficiency, and compliance.

## B. Standards of Internal Auditing

The internal audit function strives to govern itself by adhering to the mandatory elements of The Institute of Internal Auditors' International Professional Practices Framework, which includes the Core Principles for the Professional Practice of Internal Auditing, the Code of Ethics, the International Standards for the Professional Practice of Internal Auditing (Standards), and the Definition of Internal Auditing. The chief audit officer reports periodically to senior management and CARMC regarding internal audit's conformance to the Code of Ethics and the Standards.

As applicable, the following will also be used to guide internal audit operations: The Institute of Internal Auditors' implementation and supplemental guidance; Government Auditing Standards issued by the Comptroller General of the United States; relevant state and University policies and procedures; and the internal audit function's standard operating procedures manual.

## C. Authority

The chief audit officer will report functionally to CARMC and administratively (i.e., day-to-day operations) to the president or the president's designee. To establish, maintain, and assure that the UNC System Office's internal audit function has sufficient authority to fulfill its duties, CARMC will:

1. Review and approve the internal audit charter, ensuring it accurately reflects the internal audit function's purpose, authority, and responsibility.
2. Review and approve the risk-based internal audit plan.
3. Review internal audit reports and communications with management, as well as management's corrective actions. If necessary, review and resolve any significant difficulties or disagreements on audit related matters.
4. Review periodic summaries regarding the status and/or results of audit activities in relation to the plan, approve any significant deviations to the audit plan, and assure the internal audit function has appropriate budget and resources.

# Audit Plan
