Information Reports

At President Spangler's request, Vice President Dawson distributed and discussed the results of the 1988 survey of University graduates. He noted the favorable reports with respect to academic matters but unfavorable comments regarding academic advising.

D. G. Martin discussed the process of selection of institutional trustees for the class of 1995.

Vice President Robinson reviewed a proposal to be presented to the Board of Governors in January that would establish a University legislative liaison committee composed of the chancellors, trustee board chairs, one other trustee from each campus, and representatives from the faculty, alumni, and boards of visitors. The committee would assist the President and the Board of Governors in communicating to members of the General Assembly in a positive and coordinated way the needs of the University. Student leaders will be kept advised of these efforts.

Associate Vice President Padilla led a discussion of proposals to be considered at the upcoming NCAA meeting.

Richard Robinson reminded the chancellors of new federal legislation that will require the reporting of retention and graduation rates. Administrative regulations for implementing the law are to be developed by the U.S. Secretary of Education.
