

ADMINISTRATIVE MEMORANDUM

SUBJECT Recycling of Materials Which Would
 Otherwise Become Solid Waste

NUMBER 320
DATE April 10, 1992

The 1989 Session of the General Assembly produced legislation providing significant direction for a statewide effort to reduce solid waste through economical reclaiming of material which would otherwise be discarded as solid waste. The portion of the legislation known as the Solid Waste Management Act of 1989 (G.S. 130A-309.1 and following) provides for the reduction, recycling, and reuse or treatment of solid waste. The Act further establishes a goal of reduction of at least 25% in the total waste stream by January 1, 1993. In meeting this goal, each State agency is required to develop for any generated waste a recycling plan which is consistent with the solid waste management policy of the State. The purpose of this administrative memorandum is to provide the broad outline that will allow each constituent institution of the University to develop solid waste recycling plans tailored to develop strategies and to utilize recycling resource opportunities both on campus and in the local geographical area.

The following policy and procedural guidelines shall be incorporated into the institutional recycling plans:

1. Each constituent institution of The University shall develop a solid waste recycling plan and forward the plan to the North Carolina Department of Environment, Health and Natural Resources with a copy to UNC-General Administration by May 1, 1992. To the extent that institutional plans have been previously developed, such plans should be re-examined in light of this administrative memorandum.
2. Each campus will designate a person as the institutional recycling coordinator. Although certain institutions have previously established the recycling coordinator as a full-time position, most institutions will require designation of an individual on an ad hoc basis. It is not the intention of this memorandum to require establishment of a new position for this purpose.
3. Each institutional recycling plan will include a means of annual measurement of solid waste generated, recycled, and disposed, and the methods of solid waste recycling and disposal used. This portion of the plan will require study of the waste stream of the institution with identification of those components of the waste stream which can be feasibly recycled. It is anticipated that this data will be developed for reporting to the

North Carolina Department of Environment, Health, and Natural Resources, with a copy to UNC-General Administration.

4. Each institutional recycling plan should specifically prohibit non-conforming disposal of waste materials in violation of General Statutes.
5. Each campus should promote the purchase of commodities which are manufactured with recycled products where economically feasible to do so.
6. Each institutional plan should be developed with consideration of local or municipal efforts in recycling and joining with local programs where practical. Copies of a *Directory of North Carolina State and Local Contacts for Recycling Information and Assistance - 1991* and a *Directory of Industrial and Commercial Recyclers Serving North Carolina Businesses and Communities* are forwarded as attachments. These documents are intended to enhance local contacts for joint recycling efforts and as a source of firms specializing in material recycling.
7. Each institutional recycling plan should include a time frame for reporting implementation of the plan. Also attached is a document entitled *Guidelines for Developing Recycling Implementation Plans for North Carolina State Agencies* which is intended to serve as a resource for determining program elements which should be considered for inclusion in the institutional recycling plan.

NORTH CAROLINA DEPARTMENT OF ENVIRONMENT, HEALTH, AND NATURAL RESOURCES

JAMES G. MARTIN
GOVERNOR, NORTH CAROLINA

WILLIAM W. COBEY, JR.
SECRETARY

ACKNOWLEDGEMENTS

A special thanks goes out to the following individuals who collectively made this document a reality: Barbara Brandreth, Lorie Faucette, Tammie Hobby, Neville LeFebvre, Charlotte Luke, Catherine Martin, Mary Beth Powell, and Rhonda Sherman.

The Office of Waste Reduction also expresses its appreciation to the individuals who responded to the original survey and who took the time out of their busy schedules to provide information on local recycling efforts across the state. While we have made every effort to provide accurate information in this directory, the expansive growth of recycling programs in the state makes a "snapshot" of the recycling picture in North Carolina difficult to capture. Some information may have changed since its original collection.

INTRODUCTION

Even before the passage of the 1989 Act to Improve the Management of Solid Waste (commonly referred to as Senate Bill 111), recycling was well on its way to becoming a more recognized option for managing solid waste generated within the State of North Carolina. Senate Bill 111, however, set a new course for North Carolina in dealing with its waste dilemma and has succeeded securing waste reduction and recycling as prime options to be explored and implemented in communities across the state.

WHAT THIS DIRECTORY DOES.

This directory identifies those local governments, private companies, and non-profit organizations that have taken the initiative to implement recycling programs in their localities. It also serves as a point of reference for individuals who desire information on where recycling programs exist, or in some cases, who to contact in areas where recycling has not yet been initiated.

Through the use of this directory, government officials will be able to refer businesses and citizens with questions about recycling to the appropriate state or local contact who is most likely to be able to answer the question. In addition, it serves as a central source for identifying programs with similar interests or programs.

WHAT THIS DIRECTORY DOES NOT DO.

This directory does not identify and list the specific locations of drop-off centers for each recycling program. To do so would have been an enormous task and since drop-off locations tend to move from time to time such a listing would very quickly be out of date. Most recycling programs with a drop-off component have lists or maps of the recycling locations in a given community or area. To locate this type of information, please contact the appropriate recycling contact person for the area listed in which you are interested.

HOW TO USE THIS DIRECTORY.

This directory is divided into two major sections: state contacts and local contacts. The first section, state contacts, lists North Carolina state agencies and organizations that

provide recycling information and assistance to local governments, businesses and residents. These include the following: 1) state agencies; 2) state professional and trade associations; and 3) universities/colleges with recycling expertise.

The second section, local contacts, lists recycling contacts for all North Carolina county governments and selected municipal governments. This section contains separate subdirectories for both county and municipal governments and gives the following information for each local government listed: 1) primary recycling contact; 2) recyclable materials collected; 3) type(s) of recycling activity; and 4) non-profit/private sector activity within the specified area. Entries for both subdirectories are alphabetically listed.

Immediately following each local government subdirectory are two cross reference indexes: 1) recyclable materials collected and 2) type of recycling activity. These group local governments by specific materials collected (e.g., aluminum cans, motor oil, etc.) and by the type of recycling activity employed (e.g., drop-off centers, curbside collection, etc.).

OFFICE OF WASTE REDUCTION

The Office of Waste Reduction (OWR) is a new agency within the N.C. Department of Environment, Health, and Natural Resources, organized in January 1991. The Office of Waste Reduction combines waste reduction and recycling efforts from various state agencies and places them in one central office to facilitate comprehensive technical assistance, training and education on waste issues. The Office is organized into two main program areas: the industrial waste arm houses the Pollution Prevention Program addressing industrial solid and hazardous waste as well as air and water releases from industrial sources. The municipal waste arm is made up of the Solid Waste Reduction Program focusing on residential, commercial and institutional solid waste.

A total of twelve people are employed by the Office of Waste Reduction including ten waste professionals and two support staff. The Office began operations as a consolidated unit in January 1991 and is physically located at 3825 Barrett Drive, Raleigh.

RICHMOND

Richard O. Tillis, County Manager
Richmond County
P.O. Box 504
Rockingham, NC 28379 (919) 997-8211

Materials: Aluminum Cans, Appliances, Glass,
PETE, Batteries

Type of Activity: Drop-off Center

Non-Profit/Private Sector Activity:

- Agricultural Extension Service - Earline Waddell
- (919) 997-8255

ROBESON

W. C. Baxley, Director Solid Waste
Robeson County Solid Waste
Rt 2, Box 545
St. Paul, NC 28384 (800) 682-2014

Materials: Aluminum Cans, Bimetal Cans, Ap-
pliances, Other Metal, Wood Waste, Newsprint,
Cardboard, Other Paper, Glass, PETE, HDPE,
Other Plastic, Tires, Brush, Leaves, Other Yard
Waste, Waste Oil, Mixed Paper, Office Paper,
Batteries

Type of Activity: Buy-back Center, Drop-off
Center

Non-Profit/Private Sector Activity:

- Campbell Soup - Maxton, NC - Cardboard,
Aluminum Products
- Universal Packing - Lumberton, NC -Cardboard
- Converse Rubber Co. - Lumberton, NC -
Cardboard, Rubber By-products

ROCKINGHAM

Michael E. McDaniel
Environmental Health Supervisor
Rockingham County Health Department
Rt. 8, Box 701-J
Reidsville, NC 27320 (919) 342-8180

Materials: Appliances, Other Metal, Glass, Office Paper

Type of Activity: Drop-off Center

Non-Profit/Private Sector Activity:

- *Reynolds Aluminum* - Eden - Aluminum Cans
- *IEM Plastics* - Reidsville - HDPE - (919) 342-0356
- *Brenner Metals* - Winston-Salem - Metals
- *Greer Recycling* - Reidsville - Metals, Glass - (919) 342-4812

ROWAN

Patti D. Burchette, Recycling Coordinator
Rowan County Environmental Services
402 N. Main St.
Salisbury, NC 28023 (704) 857-6332

Materials: Aluminum Cans, Bimetal Cans, Appliances, Other Metal, Wood Waste, Newsprint, Cardboard, Glass, PETE, HDPE, Tires, Brush, Waste Oil, Mixed Paper, Office Paper, Batteries

Type of Activity: Drop-off Center

Non-Profit/Private Sector Activity:

- *First United Church of Christ* - Newsprint, Glass - Woman's Circle - (704) 633-2723
- *Homemaker's Extension* - Newsprint, Aluminum Cans, Glass - Arnetia Watts - (704) 633-0571
- *Southeastern Recycling* - 200 Klumac Road - All Types - (704) 639-0914
- *Wallace Recycling* - Granite Quarry, NC - Glass - (704) 633-6119
- *Holmes Iron & Metal* - E. Spencer - Scrap Metal - (704) 633-6119

RUTHERFORD

James W. Carr, Solid Waste Director
Rutherford County
601 N. Main Street
Rutherfordton, NC 28139 (704) 287-6125

Materials: Aluminum Cans, Wood Waste, Newsprint, Cardboard, Glass, PETE, HDPE, Tires, Brush, Leaves, Other Yard Waste, Waste Oil, Office Paper, Batteries

Type of Activity: Buy-back Center, Drop-off Center

Non-Profit/Private Sector Activity:

- *Collins Metals* - Forest City, NC - Aluminum, Ferrous Metals - (704) 245-2366
- *J.C. Moore Scrap Metal* - Ellenboro, NC - Batteries, Aluminum, Iron Scrap - (704) 657-5791

SAMPSON

Kenneth Jones
Environmental Health Supervisor
Sampson County Health Dept.
Rowan Rd.
Clinton, NC 28328 (919) 592-1131

Materials: None

Type of Activity: None

Non-Profit/Private Sector Activity:

- *Sampson County Recycling, Inc.* - Turkey, NC - Cardboard, Aluminum Cans, Brass, HDPE, PETE - Bobby & Judy Smith - (919) 592-4444
- *Plastic Tubing* - Roseboro, NC - HDPE, Paper, Aluminum Cans - (919) 525-5121
- *Sampson Salvage* - Clinton, NC - Aluminum, Iron, Brass, Soft Metals - (919) 592-6303

SCOTLAND

Jack Di Sarno, Scotland County Manager
Scotland County
P.O. Box 489
Laurinburg, NC 28353 (919) 277-2406

Materials: Aluminum Cans, Newsprint, Tires,
Waste Oil

Type of Activity: Transfer/Disposal Facility

Non-Profit/Private Sector Activity:

- S.C. Est. *Homemakers* - Newsprint, Aluminum Cans - Ann Collie - (919) 277-2422

Non-Profit/Private Sector Activity: (continued)

- S.C. Dept. Trans. & Eng. - Tires - Jack Di Sarno - (919) 277-2406
- Laurinburg City Gov. - Newsprint, Aluminum Cans, Glass - Harold Smith - (919) 276-2364
- Cohen & Green Salvage Co., Inc. - Fayetteville - Aluminum Cans, Glass
- The Recycle Center - Dillon, SC - Aluminum Cans, Glass
- Wagram Paper Stock - Wagram, NC - Aluminum Cans, Glass, Newsprint
- Plyler Paper Stock - Cheraw, SC - Aluminum Cans, Glass, Newsprint

STANLY

Diane B. Davis, Solid Waste Coordinator
County of Stanly
201 S. Second Street
Albemarle, NC 28001 (704) 983-7319

Materials: Aluminum Cans, Newsprint, Glass,
Waste Oil

Type of Activity: Collection at staffed compactor/convenience center stations

Non-Profit/Private Sector Activity:

- City of Albemarle Recycling Center - Glass, Newsprint, Aluminum Cans - James Coble - (704) 982-0131

STOKES

Jay Kinney, Public Works Director
Stokes County
P.O. Box 20
Danbury, NC 27016 (919) 593-2811

Materials: Aluminum Cans, Cardboard, Other Paper, Glass, Other Plastic, Tires, Waste Oil

Type of Activity: Drop-off Center

Non-Profit/Private Sector Activity: None

SURRY

Roy Lee Martin, Public Works Technician
Surry County
P. O. Box 706
Dobson, NC 27017 (919) 386-9211

Materials: Aluminum Cans, Bimetal Cans, Appliances, Other Metal, Newsprint, Cardboard, Glass, PETE, HDPE, Mixed Paper, Office Paper, Batteries

Type of Activity: Buy-back Center, Drop-off Center, Recycling Days, Minimal Industrial Cardboard pick-up

Non-Profit/Private Sector Activity:

- Surry County Recycling Committee - Aluminum Cans, Glass, Newsprint, Office Paper - Brenda Rose - (919) 386-9274
- Morrison's Recycling - 123 S. Bridge Street, Elkin, NC 28621 - (919) 835-6909
- Mt. Airy Iron & Metal - 733 N. South Street, Mt. Airy, NC 27030 - Metal - (919) 786-7659
- Waste Management - Smith Road, Mt. Airy, NC (919) 320-2263

SWAIN

Linda Cable, County Administrator
Swain County
P.O. Box 1056
Bryson City, NC 28713 (704) 488-9273

Materials: Tires, Brush

Type of Activity: Contractor for tire disposal/mulching of brush

Non-Profit/Private Sector Activity:

- *Cooperative Extension Service* - Newsprint - Jeff Carpenter - (704) 488-9273
- *CDL International* - Tires

TRANSYLVANIA

Will Sagar, Solid Waste Director
Transylvania County
28 E. Main Street
Brevard, NC 28712 (704) 884-5011

Materials: Aluminum Cans, Appliances, Other Metal, Newsprint, Glass, PETE, HDPE, Tires, Waste Oil, Batteries

Type of Activity: Drop-off Center.

Non-Profit/Private Sector Activity:

- *Vaughn's Recycling* - Vanderbilt Rd., Pisgah Forest, NC - Aluminum Cans, Glass, HDPE, PETE- (704) 884-9798
- *Holsten Energy* - Waynesville, NC - Waste Oil - (704) 452-2836

TYRELL

Peggy Sawyer, Payroll Clerk
Tyrell County
P.O. Box 449
Columbia, NC 27925 (919) 796-1371

Materials: Aluminum Cans, Other Metal, Glass, PETE, HDPE, Other Plastic, Tires, Batteries

Type of Activity: Buy-back Center

Non-Profit/Private Sector Activity:

- *Glisson's Enterprises, Inc.* - Rt. 11, Box 343, Greenville, NC 27834 - Glass, Plastic, Batteries, Other Metals - (919) 758-2548
- *Southeastern Public Service Authority* - P.O. Box 1346, Chesapeake, VA 23320-1346 - Tires - (804) 420-4700

UNION

Mike Shalati, Public Works Director
Union County
P.O. Box 218
Monroe, NC 28110 (704) 283-3810

Materials: Glass, PETE

Type of Activity: Drop-off Center.

Non-Profit/Private Sector Activity:

- *Consolidated Alloys* - Metal - John Wingfield (704) 283-4455

VANCE

John Demary, County Manager
Vance County
122 Young Street
Henderson, NC 27536 (919) 430-7171

Materials: None

Type of Activity: None

Non-Profit/Private Sector Activity:

- *Allen Recycling* - Chestnut St., Henderson, NC 27536 - Batteries, Copper, Aluminum Cans, etc.
- *Ball-Incon* - US Highway 1, Henderson, NC 27536 - Glass

WAKE

Lowell Shaw
Recycling Coordinator
Wake County
P. O. Box 550
Raleigh, NC 27602 (919) 856-6201

Materials: Aluminum Cans, Bimetal Cans,
Newsprint, Glass, PETE, HDPE, Mixed Paper,
Office Paper

Type of Activity: Drop-off Center

Non-Profit/Private Sector Activity:

- *Wake Community Recycling* - Newsprint, Aluminum Cans, Glass
- *Sanderson High School* - Newsprint, Glass, Aluminum Cans

TYPES OF RECYCLABLE MATERIALS

Aluminum Cans

Albemarle, Alliance, Andrews, Angier, Asheboro, Asheville, Atkinson, Ayden, Beaufort, Beech Mountain, Beulaville, Blowing Rock, Bolton, Boone, Carrboro, Cary, Caswell Beach, Catawba, Chadbourn, Chapel Hill, Charlotte, Clemmons, Columbus, Conover, Cornelius, Cramerton, Davidson, Dunn, Durham, Eden, Edenton, Elizabethtown, Ellerbe, Elm City, Emerald Isle, Everetts, Faison, Farmville, Fayetteville, Fremont, Garner, Gibsonville, Greenville, Havelock, Henderson, Hendersonville, Hickory, High Point, Hillsborough, Hope Mills, Hudson, Huntersville, Jacksonville, Jefferson, Kenansville, Kernersville, Kill Devil Hills, Kings Mountain, Kitty Hawk, Knightdale, LaGrange, Laurinburg, Lenoir, Liberty, Lincolnton, Long Beach, Long View, Lumberton, Macclesfield, Madison, Maiden, Manteo, Matthews, Mebane, Mint Hill, Mocksville, Montreat, Morganton, Nags Head, Nashville, Newland, Newton Grove, Old Fort, Oriental, Oxford, Parkton, Pinebluff, Pinehurst, Raleigh, Red Springs, Rockwell, Rocky Mount, Ronda, Rutherford Col., Rutherfordton, Saluda, Severn, Shelby, Simpson, Southern Pines, Southport, Stantonsburg, Statesville, Tarboro, Taylorsville, Thomasville, Wake Forest, Weaverville, Wendell, White Lake, Whiteville, Wilmington, Winston-Salem, Wrightsville Beach, Yadkinville, Zebulon

Bimetal Cans

Alliance, Beulaville, Blowing Rock, Boone, Cary, Chadbourn, Charlotte, Cornelius, Edenton, Elizabethtown, Farmville, Fremont, Garner, Gibsonville, Greenville, Havelock, Hickory, High Point, Hudson, Huntersville, Jacksonville, Jefferson, Kernersville, Kill Devil Hills, Kings Mountain, Kitty Hawk, Mint Hill, Mocksville, Montreat, Morganton, Nashville, New Bern, Oriental, Rockwell, Statesville, Wendell, Whiteville, Zebulon

Appliances

Asheboro, Asheville, Beech Mountain, Blowing Rock, Chapel Hill, Charlotte, China Grove, Conover, Durham, Eden, Gibsonville, Greensboro, Hickory, High Point, Jacksonville, Kernersville, Kill Devil Hills, Mooresville, Morganton, Nags Head, Old Fort, Rocky Mount, Ronda, Rose Hill, Salisbury, Wake Forest, Wilmington, Winston-Salem, Woodfin, Wrightsville Beach

Other Metal

Asheboro, Asheville, Blowing Rock, Eden, Edenton, Everetts, Gibsonville, High Point, Jacksonville, Mocksville, Mooresville, Rocky Mount, Shelby, Southport, Thomasville, Wilmington, Winston-Salem, Woodfin, Wrightsville Beach

Wood Waste

Asheville, Beech Mountain, Blowing Rock, Conover, Davidson, Eden, Franklinton, Gaston, Goldsboro, Greenville, Havelock, High Point, Kings Mountain, Laurinburg, Lillington, Mooresville, Morganton, Newland, Oriental, Plymouth, Ronda, Salisbury, Stantonsburg, Winston-Salem

Newsprint

Albemarle, Andrews, Arapahoe, Asheboro, Asheville, Beaufort, Beech Mountain, Bessemer City, Beulaville, Blowing Rock, Boone, Carrboro, Cary, Catawba, Chapel Hill, Charlotte, China Grove, Columbus, Como, Conover, Cornelius, Cramerton, Davidson, Dunn, Durham, Eden, Elizabethtown, Ellerbe, Elm City, Emerald Isle, Eureka, Faison, Farmville, Fayetteville, Forest City, Fremont, Garner, Gibsonville, Glen Alpine, Goldsboro, Granite Falls, Greensboro, Greenville, Havelock, Hendersonville, Hickory, High Point, Hillsborough, Hope Mills, Hudson, Huntersville, Jacksonville, Jefferson, Kenansville, Kernersville, Kill Devil Hills, Kings Mountain, Kitty Hawk, Knightdale, Laurinburg, Lenoir, Liberty, Lincolnton, Long Beach, Long View, Macclesfield, Madison, Manteo, Matthews, Mebane, Mint Hill, Mocksville, Monroe, Morganton, Nags Head, Nashville, New Bern, Newland, Newton Grove, Old Fort, Oxford, Parkton, Pinebluff, Pinehurst, Raleigh, Red Springs, Rockwell, Rocky Mount, Ronda, Rutherford Col., Rutherfordton, Shelby, Simpson, Southern Pines, Southport, Spencer, Stantonsburg, Statesville, Taylorsville, Thomasville, Valdese, Wake Forest, Wendell, Whiteville, Wilmington, Winston-Salem, Wrightsville Beach, Yadkinville, Zebulon

Cardboard

Asheville, Beaufort, Beech Mountain, Beulaville, Blowing Rock, Boone, Carrboro, Catawba, Chapel Hill, China Grove, Clyde, Durham, Elizabethtown, Elm City, Emerald Isle, Faison, Fayetteville, Fremont, Garland, Gibsonville, Goldsboro, Greenville, Hickory, High Point, Hope Mills, Huntersville, Jacksonville, Kenansville, Kill Devil Hills, Kitty Hawk, Laurinburg, Long Beach, Macclesfield, Manteo, Mebane, Mocksville, Montreat, Morganton, Nags Head, Newland, Newton Grove, Oriental, Parkton, Rockwell, Rocky Mount, Ronda, Southport, Stantonsburg, Thomasville, Waynesville, Whiteville, Wilmington, Winston-Salem, Woodfin, Wrightsville Beach, Yadkinville

Other Paper

Asheboro, Blowing Rock, Boone, Cary, Chapel Hill, Ellerbe, Faison, Fayetteville, Fremont, Gibsonville, Goldsboro, Greenville, Havelock, Jacksonville, Kenansville, Kitty Hawk, Laurinburg, Lenoir, Manteo, Morganton, Pinebluff, Red Springs, Rocky Mount, Ronda, Simpson, Stantonsburg, Whiteville, Wilmington

Glass

Albemarle, Alliance, Andrews, Asheville, Beaufort, Beech Mountain, Beulaville, Blowing Rock, Bolton, Boone, Carrboro, Cary, Catawba, Chadbourn, Chapel Hill, Charlotte, China Grove, Columbus, Conover, Cramerton, Davidson, Dunn, Durham, Eden, Edenton, Elizabethtown, Ellerbe, Elm City, Emerald Isle, Everetts, Farmville, Fayetteville, Franklinton, Fremont, Garner, Gibsonville, Greenville, Havelock, Henderson, Hendersonville, Hickory, High Point, Hillsborough, Hope Mills, Hudson, Huntersville, Jacksonville, Jefferson, Kenansville, Kernersville, Kill Devil Hills, Kings Mountain, Kitty Hawk, Knightdale, Laurinburg, Lenoir, Liberty, Lincolnton, Long Beach, Long View, Lumberton, Macclesfield, Madison, Maiden, Manteo, Mebane, Mint Hill, Mocksville, Montreat, Morganton, Nags Head, Nashville, New Bern, Newland, Newton Grove, Old Fort, Oriental, Oxford, Parkton, Pinebluff, Pinehurst, Pink Hill, Raleigh, Red Springs, Rockwell, Rocky Mount, Ronda, Rutherford Col., Saluda, Severn, Shelby, Simpson, Southern Pines, Southport, Stantonsburg, Statesville, Tarboro, Taylorsville, Thomasville, Wake Forest, Weaverville, Wendell, Whiteville, Wilmington, Winston-Salem, Wrightsville Beach, Yadkinville, Zebulon

PETE

Andrews, Asheville, Beaufort, Beulaville, Bolton, Boone, Chadbourn, Chapel Hill, Charlotte, Columbus, Cornelius, Davidson, Dunn, Eden, Edenton, Elizabethtown, Everetts, Faison, Fayetteville, Gibsonville, Greensboro, Greenville, Hendersonville, High Point, Hope Mills, Huntersville, Jacksonville, Jefferson, Kenansville, Kernersville, Kill Devil Hills, Kings Mountain, Kitty Hawk, LaGrange, Laurinburg, Lincolnton, Long Beach, Madison, Manteo, Mint Hill, Mocksville, Montreat, Morganton, Nags Head, Nashville, New Bern, Newland, Old Fort, Oriental, Parkton, Pinehurst, Raleigh, Ronda, Rutherford College, Saluda, Shelby, Southport, Stantonsburg, Statesville, Thomasville, Weaverville, Whiteville, Wilmington, Winston-Salem, Wrightsville Beach, Yadkinville, Zebulon

HDPE

Asheville, Beulaville, Bolton, Chadbourn, Chapel Hill, Columbus, Dunn, Eden, Edenton, Elizabethtown, Ellerbe, Faison, Fayetteville, Gibsonville, Greensboro, Greenville, Hendersonville, High Point, Hope Mills, Huntersville, Jacksonville, Jefferson, Kenansville, Kernersville, Kill Devil Hills, Kings Mountain, Kitty Hawk, LaGrange, Laurinburg, Lincolnton, Long Beach, Madison, Manteo, Mint Hill, Mocksville, Montreat, Morganton, Nags Head, Nashville, Newland, Newton Grove, Old Fort, Oriental, Parkton, Pinehurst, Red Springs, Ronda, Rutherford Col., Saluda, Shelby, Southport, Stantonsburg, Statesville, Thomasville, Weaverville, Whiteville, Wilmington, Winston-Salem, Wrightsville Beach, Yadkinville

Other Plastic

Alliance, Eden, Edenton, Ellerbe, Gibsonville, Greenville, High Point, Jacksonville, Jefferson, Kings Mountain, Long Beach, Madison, Manteo, Mint Hill, Mocksville, Parkton, Pinehurst, Ronda, Rutherford College, Saluda, Shelby, Southport, Stantonsburg, Whiteville, Wilmington, Wrightsville Beach

Tires

Beech Mountain, Bryson City, Chapel Hill, Columbus, Eden, Gaston, Greensboro, Greenville, Havelock, Jacksonville, Kill Devil Hills, Mooresville, Nags Head, Old Fort, Ronda, Rose Hill, Salisbury, Whiteville, Windsor, Winston-Salem

Brush

Albemarle, Beech Mountain, Blowing Rock, Boiling Springs, Bolton, Boone, Cary, Chapel Hill, Conover, Cornelius, Durham, Eden, Edenton, Fayetteville, Franklinton, Fremont, Gaston, Gibsonville, Goldsboro, Havelock, Hickory, High Point, Hudson, Huntersville, Jacksonville, Kannapolis, Kernersville, Kill Devil Hills, Kings Mountain, Laurinburg, Lenoir, Lillington, Macclesfield, Manteo, Mint Hill, Mocksville, Mooresville, Morganton, Nags Head, Nashville, Newland, Oriental, Oxford, Pinehurst, Plymouth, Rockwell, Ronda, Rose Hill, Rutherfordton, Salisbury, Stantonsburg, Statesville, Wake Forest, Waynesville, Weaverville, Wendell, Wilmington, Winston-Salem, Zebulon

Leaves

Asheville, Beech Mountain, Blowing Rock, Boiling Springs, Bolton, Boone, Carrboro, Cary, Chapel Hill, Cornelius, Eden, Edenton, Fayetteville, Franklinton, Fremont, Gaston, Gibsonville, Goldsboro, Greensboro, Greenville, Havelock, Hickory, High Point, Huntersville, Jacksonville, Kannapolis, Kill Devil Hills, Kings Mountain, Laurinburg, Lenoir, Lillington, Macclesfield, Manteo, Mooresville, Newland, Oriental, Oxford, Pinebluff, Pinehurst, Plymouth, Raleigh, Ronda, Rutherfordton, Salisbury, Selma, Severn, Shelby, Stantonsburg, Statesville, Wake Forest, Weaverville, Wendell, Wilmington, Winston-Salem, Zebulon

Other Yard Waste

Asheville, Beech Mountain, Blowing Rock, Boiling Springs, Boone, Cary, Cornelius, Eden, Edenton, Fayetteville, Franklinton, Fremont, Gaston, Gibsonville, Goldsboro, Havelock, High Point, Huntersville, Jacksonville, Kill Devil Hills, Kings Mountain, Laurinburg, Lenoir, Manteo, Mint Hill, Mooresville, Newland, Oriental, Oxford, Pinehurst, Plymouth, Ronda, Rutherfordton, Salisbury, Weaverville, Wilmington, Zebulon

Waste Oil

Asheboro, Beech Mountain, Bessemer City, Blowing Rock, Boone, Carrboro, Cary, Chapel Hill, Durham, Edenton, Fayetteville, Greensboro, Greenville, Jacksonville, Kill Devil Hills, Lenoir, Long Beach, Manteo, Mocksville, Mooresville, Morganton, Nags Head, Raleigh, Rocky Mount, Ronda, Salisbury, Southport, Wake Forest

Mixed Paper

Alliance, Beulaville, Blowing Rock, Boone, China Grove, Como, Ellerbe, Emerald Isle, Farmville, Fayetteville, Fremont, Gibsonville, Goldsboro, Greenville, Havelock, High Point, Hope Mills, Jacksonville, Kenansville, Kernersville, Kill Devil Hills, Kings Mountain, Kitty Hawk, Laurinburg, Liberty, Long Beach, Macclesfield, Manteo, Nags Head, Old Fort, Pink Hill, Rocky Mount, Ronda, Simpson, Stantonsburg, Statesville, Tarboro, Winston-Salem

Office Paper

Asheboro, Ayden, Bessemer City, Beulaville, Blowing Rock, Boone, Carrboro, Cary, Chapel Hill, China Grove, Como, Conover, Durham, Edenton, Elizabethtown, Ellerbe, Emerald Isle, Faison, Fayetteville, Fremont, Gibsonville, Goldsboro, Greensboro, Greenville, Havelock, Hendersonville, Hickory, High Point, Hope Mills, Jacksonville, Kenansville, Kernersville, Kill Devil Hills, Kings Mountain, Kitty Hawk, Laurinburg, Lenoir, Long Beach, Lumberton, Macclesfield, Madison, Manteo, Mocksville, Morganton, Nags Head, Nashville, Newland, Old Fort, Oxford, Pinebluff, Raleigh, Red Springs, Rocky Mount, Ronda, Rutherfordton, Simpson, Stantonsburg, Statesville, Thomasville, Wilmington, Winston-Salem, Yadkinville

Batteries

Andrews, Asheboro, Beech Mountain, Cary, Durham, Edenton, Everetts, Fayetteville, Gaston, Greensboro, Greenville, Jacksonville, Kill Devil Hills, Lenoir, Long Beach, Mooresville, Morganton, Nags Head, Rocky Mount, Ronda, Rose Hill, Salisbury, Severn, Shelby, Southport, Windsor, Winston-Salem

Other

Beech Mountain, Chapel Hill, Edenton, Greensboro, Magnolia

TYPES OF RECYCLING ACTIVITY

Buy-Back Center

Catawba, Elizabethtown, Ellerbe, Everetts, High Point, Hope Mills, Jacksonville, Morganton, Newton Grove, Thomasville, Winston-Salem

Drop-Off Center

Albemarle, Angier, Arapahoe, Asheboro, Asheville, Beaufort, Beech Mountain, Bessemer City, Beulaville, Blowing Rock, Boone, Broadway, Carrboro, Cary, Chadbourne, Chapel Hill, China Grove, Clemmons, Columbus, Conover, Cramerton, Creedmoor, Dunn, Durham, Eden, Edenton, Elizabethtown, Elm City, Emerald Isle, Farmville, Fayetteville, Forest City, Four Oaks, Franklinton, Fremont, Gibsonville, Glen Alpine, Greensboro, Greenville, Hendersonville, Hickory, High Point, Hillsborough, Hope Mills, Huntersville, Jacksonville, Jefferson, Kenansville, Kernersville, Kill Devil Hills, Kings Mountain, Kitty Hawk, LaGrange, Lenoir, Liberty, Long Beach, Lumberton, Macclesfield, Madison, Maiden, Manteo, Matthews, Mebane, Montreat, Morganton, Nags Head, Newland, Newton Grove, Old Fort, Oriental, Oxford, Pinehurst, Pink Hill, Raleigh, Ramseu, Red Springs, Rockwell, Rocky Mount, Rural Hall, Rutherford Col., Rutherfordton, Saluda, Shelby, Southport, Stantonburg, Tarboro, Taylorsville, Valdese, Wake Forest, Weaverville, Wendell, White Lake, Whiteville, Wilmington, Winston-Salem, Wrightsville Beach, Yadkinville

Curbside Collection

Alliance, Boiling Springs, Boone, Carrboro, Cary, Chapel Hill, Charlotte, Como, Conover, Cornelius, Davidson, Durham, Eden, Faison, Fremont, Garland, Garner, Goldsboro, Greensboro, Hillsborough, Hudson, Huntersville, Knightdale, Long View, Manteo, Mint Hill, Mocksville, Nashville, New Bern, Newland, Newton Grove, Old Fort, Parkton, Pinebluff, Pinehurst, Raleigh, Rockwell, Salisbury, Southern Pines, Spencer, Statesville, Waynesville, Wilmington, Windsor, Winston-Salem, Winton, Wrightsville Beach, Zebulon

Transfer/Disposal Facility Salvage

Andrews, Edenton, Gaston, High Point, Saluda, Winston-Salem

Other

Atkinson, Aurora, Blowing Rock, Caswell Beach, Chapel Hill, Clyde, Cramerton, Durham, Faison, Franklinton, Gibsonville, Greenville, Havelock, Henderson, Hickory, Hudson, Jacksonville, Kill Devil Hills, Lincolnton, Manteo, Monroe, Morganton, Newton Grove, Old Fort, Oriental, Pinebluff, Pink Hill, Raleigh, Rose Hill, Severn, Shelby, Waynesville, White Lake, Wilmington, Winston-Salem, Woodfin

INTRODUCTION

Recycling is becoming more common as a solid waste management alternative for North Carolina governments, businesses, and citizens. This directory has been published and distributed in order to encourage both existing and future recycling efforts.

Through the use of this directory, business and governmental officials will be able to identify industrial and commercial recyclers by business name, location, and the specific recyclable materials they accept.

DEFINITION

For purposes of this directory, an industrial and commercial recycler is defined as: "Any individual or company which accepts (i.e., collects, handles, processes, brokers, uses, etc.) recyclable materials from governmental agencies, businesses, non-profit organizations, and/or individuals." (Note that for a recycler to be included in this directory, recycling must be a primary activity of their business.)

NC RECYCLER DIRECTORY DEVELOPMENT PROJECT

The NC Recycler Directory Development Project was conducted by the UNC Institute for Transportation Research and Education (ITRE) through a grant from the Office of Waste Reduction, NC Department of Environment, Health and Natural Resources.

This project provides North Carolina governments, businesses and residents with general information on what materials they can recycle, and who they can call for more information and assistance.

HOW TO USE THIS DIRECTORY

This directory contains a listing of industrial and commercial recyclers, followed by a cross reference of the specific materials accepted by these recyclers.

Directory users may identify an industrial and commercial recycler alphabetically in the **Recycling Contacts** section. This section provides the following information about each recycler: business name, address, contacts, geographical service area, materials accepted (with specific requirements for each material in parentheses, where applicable), and general requirements for all materials.

Immediately following the alphabetical list of recyclers is the **Recyclable Materials Accepted** section. This is

an index that can be utilized by directory users to search for a specific material and identify an industrial and commercial recycler in their area. In this section, specific recyclable materials are listed alphabetically by major recyclable material groups. The following major material categories have been used: Biomass, Chemical, Construction, Food, Glass, Metal, Paper, Petroleum, Plastic, Rubber, and Textile. Recyclers are listed by the specific material type (i.e. cardboard, copper, etc.) they accept and their business location (i.e. city and state).

Please note the recyclable materials and major categories below. These materials have been listed separately to aid users in finding their location within the **Recyclable Materials Accepted** section.

Recyclable Material	Major Category
Inks	Chemical
Solvents	Chemical
Paints	Chemical
Water	Chemical
Heavy Metal Residues & Sludges	Metal
Demolition Material	Construction
Appliances	Metal
Transformers	Metal
Auto Bodies and Parts	Metal
A/C and Parts	Metal
Batteries	Metal
Yard Waste	Biomass
Sludge	Biomass

ABOUT PROJECT CONTRACTOR

ITRE is an activity of The University of North Carolina 16-campus system and coordinates transportation research, education and training among the various campuses that have transportation programs and with Duke University and the NCDOT.

ITRE also provides research and technology transfer (training and technical assistance) to local, state and federal government agencies.

ITRE provides a variety of services (i.e., routing studies, feasibility studies, workshops and training courses, computer applications, planning assistance, etc.) to governments in recycling and solid waste management.

ABOUT PROJECT SPONSOR

The goal of the Office of Waste Reduction, North Carolina Department of Environment, Health and Natural Resources, is to find and promote ways to reduce, prevent, recycle, or eliminate toxic or hazardous wastes before they become pollutants. The program also administers grants for other related solid waste and recycling activities.

DISCLAIMER

The preparation of this directory was conducted by The UNC Institute for Transportation Research and

Education (ITRE) at the request of the Office of Waste Reduction, NC Department of Environment, Health and Natural Resources. Findings contained herein do not necessarily represent policies and procedures of ITRE, The University, the Office of Waste Reduction or the NC Department of Environment, Health and Natural Resources.

ITRE has made every effort to make this directory and the information contained herein as accurate as possible. Some information may have changed since its original collection.

ACKNOWLEDGEMENTS

ITRE wishes to express its appreciation to those Advisory Committee members who have participated in this project. These individuals are listed below:

Mr. Gary Hunt, Director, Office of Waste Reduction, NCDEHNR

Ms. Mary Beth Powell, Solid Waste Policy Analyst, Office of Waste Reduction, NCDEHNR

Mr. Al Ebron, Local Government Specialist, Energy Division, NCDECD

Other Office of Waste Reduction staff who have participated in this project are listed below:

Ms. Charlotte Luke, Administrative Assistant, Office of Waste Reduction, NCDEHNR

Mr. David Williams, Environmental Engineer, Office of Waste Reduction, NCDEHNR

Ms. Stephanie Richardson, Environmental Supervisor, Office of Waste Reduction, NCDEHNR

Ms. Sharon Johnson, Environmental Chemist, Office of Waste Reduction, NCDEHNR

ITRE staff who have participated in this project are listed below:

Dr. Gorman Gilbert, Director

Mr. Robert L. Martin, P.E., Associate Director and Project Director

Mr. Larry W. Minor, Assistant Director and Project Manager

Ms. Carol Hanchette, Research Associate and Project Leader

Ms. M. Beth Tsal, Research Associate

Ms. Kathryn P. McDermott, Research Associate

Ms. Robin Brown, Research Assistant

Ms. Jennifer Hayes, Research Assistant

Ms. Bettie Shipp, Research Assistant

Ms. Pam Minschew, Administrative/Research Assistant

Ms. Anne LaPierre, Administrative/Research Assistant

Ms. Rosalie Neville, Administrative Secretary

Ms. Joanne Kemp, Secretary

ITRE also wishes to express its appreciation to many local, state, and national agencies, organizations and associations and recycling businesses whose contributions have made possible the preparation of this directory.

RECYCLING CONTACTS

ACM Corp.
117 Industrial Road
Summerville, SC 29483
Contacts: Rick Moore (Pres.), (803) 821-1888
Service Area: Eastern United States
Materials: Plastic, Rubber.
General Requirements: None.

ARIVEC Chemicals, Inc.
7962 Huey Road
P.O. Box 549
Douglasville, GA 30133
Contacts: James Parizechio, Jr. (Vice Pres.),
(404) 942-4332
Service Area: Southeastern United States
Materials: Solvents (no pesticides, herbicides,
corrosives, reactives or PCB's).
General Requirements: Samples must be sent
in advance. Truck fleets are available for
pick-up service.

Aberdeen Recycling
301 N. Pine Street
Aberdeen, NC 28315
Contacts: Cindy Currie (Owner),
(919) 944-3590
Service Area: Moore, Hoke and Lee Counties
Materials: Aluminum Cans, Glass Containers
(must be separated by color), Newspaper
(must be bundled), Paper-Computer,
Paper-Office.
General Requirements: None.

Acker-Baugh, Inc.
Mayflower & 10th Avenue
P.O. Box 307
Cramerton, NC 28032
Contacts: Joe T. Acker (Pres.), (704) 375-1923
Service Area: International; United States
Materials: Textile By-Products (must be baled),
Textile Fiber (must be baled).
General Requirements: None.

Action Auto Salvage, Inc.
Route 1, Box 278A
Murphy, NC 28906
Contacts: Chet Zwierzchowski (Co-Owner),
(704) 837-8479
Service Area: Southeastern United States
Materials: Automobile-Auto Parts, Freon,
Oil-Motor.
General Requirements: Company does not
accept from individuals.

Add Paper Cores
Chalk Road
Route 5, Box 242
Rockingham, NC 28379
Contacts: Alton Wright, Sr. (Gen. Partner),
(919) 997-5120; Donna W. Franklin
(Partner), (919) 997-5120
Service Area: Eastern United States

Materials: HDPE, LDPE, Paper Tubes, Plastic,
Polypropylene (used textile cones), Textile
Fiber, Yarn.
General Requirements: None.

Alabama River Newsprint
P.O. Box 10
Perdue Hill, AL 36470
Contacts: Steve Hughs (Dir. of Purch.),
(205) 575-2000, FAX: (205) 743-4693;
Edward Sparks (Mgr. Secondary Fiber
Procurement), (813) 343-1999,
FAX: (813) 343-4020
Service Area: Southeastern United States;
South Central United States
Materials: Magazines, Newspaper.
General Requirements: None.

Alcoa Recycling
1704-A Henry G. Lane Street
Maryville, TN 37801
Contacts: Jan Pershing (Mktg. Mgr.),
(615) 982-5237, FAX: (615) 977-2790
Service Area: International
Materials: Aluminum Cans (must be dry and
free of contaminants).
General Requirements: None.

Alexander County Recycling
255 Liledown Road
Taylorsville, NC 28681
Contacts: Rich Fox (Recycling Coord.),
(704) 632-3086, FAX: (704) 632-0059
Service Area: Alexander County
Materials: Aluminum Cans, Aluminum Scrap,
Batteries, Bi-Metal Beverage Cans (must be
separated from aluminum cans), Brass,
Copper, Glass Containers (must be
separated by color with lids removed),
Newspaper, Paper-Computer.
General Requirements: None.

Allen Recycling Center
Industry Drive
P.O. Box 2106
Henderson, NC 27536
Contacts: Bonnie E. Allen (Pres.),
(919) 383-9326; Joseph L. Allen (Mgr.),
(919) 492-7836
Service Area: Vance, Granville, Person,
Warren and Franklin Counties
Materials: A/C Coils, Aluminum, Aluminum
Cans, Aluminum-Irony,
Automobile-Radiators, Batteries, Bi-Metal
Beverage Cans, Brass, Copper, Die Cast,
Glass Containers, Insulated Wire, Lead,
Non-Ferrous Metals, PET, Steel-Stainless,
Triplex, Zinc.
General Requirements: Company will accept
any quantity. Contact company for specific
material requirements and pick-up
information.

Allstate Glass Reclaiming Corp.
807 Highway 247 South
P.O. Box 1405
Perry, GA 31047
Contacts: Clarence A. Yates (Pres.),
(912) 328-8235; Tom Petty (Vice Pres.),
(912) 328-8325
Service Area: Rockingham County (NC);
Georgia
Materials: Glass Containers (separated by
color; will accept mixed if sufficient volume).
General Requirements: Company will not
accept ceramics, light bulbs, or auto glass.
In North Carolina area, company will only
accept in bulk.

Allworth, Inc.
500 Medco Road
Birmingham, AL 35217
Contacts: Brett Schofield (Sales Mgr.),
(615) 379-3215; Karma Gleaton
(Acct. Exec.), (615) 379-3215
Service Area: East Coast United States;
Southeastern United States
Materials: Chlorinated Solvents, Flammable
and Combustible Chemicals, Paint,
Solvents.
General Requirements: Company accepts
solvents for recycling and disposal.

Alternate Energy Resources, Inc.
2730 Walden Drive
Augusta, GA 30904
Contacts: John R. Schnorbach (Gen. Mgr.),
(404) 738-1571; Lamar Garrard
(Sales Mgr.), (404) 738-1571
Service Area: Southeastern United States
Materials: Coolants, Flammable and
Combustible Chemicals, Flammable and
Combustible Petroleum, Paint, Solvents,
Tank Bottom Residues, Wastewater
(hazardous and non-hazardous).
General Requirements: Transportation (at
charge) is provided for the southeastern
region. Company will accept drum or bulk
amounts. Solvents are accepted for
recycling and as fuel.

Alternative Recycling Technologies
P.O. Box 2083
Boone, NC 28607
Contacts: Don A. Woodard (Owner),
(704) 262-1028
Service Area: Western North Carolina
Materials: Construction Materials.
General Requirements: Company will accept
separated materials or will raze a building.
Materials must be in good enough condition
to reuse.

Aluminum Can Recyclers
 208 Atlantic Avenue
 P.O. Drawer 1259
 Goldsboro, NC 27530
 Contacts: Elizabeth Trammell (Mgr.),
 (919) 731-5635
 Service Area: Wayne County
 Materials: Aluminum Cans, Bi-Metal Beverage
 Cans, Glass Containers (must be separated
 by color).
 General Requirements: Contact company
 regarding specific recyclable material
 requirements. Pick-up service is available
 for the Beautification Program, Coca-Cola
 and Pepsi-Cola companies.

Aluminum Recycling Center
 P.O. Box 137
 Salisbury, NC 28145
 Contacts: Lee Roy Redwine (Mgr.),
 (704) 637-9139; Juanita F. Olsen
 (Exec. Dir.), (704) 633-6223
 Service Area: Rowan County
 Materials: Aluminum Cans.
 General Requirements: None.

Aluminum Recycling of Burlington
 1349 E. Webb Avenue
 Burlington, NC 27215
 Contacts: Jeff Broadnax (Mgr.), (919) 229-7471
 Service Area: Alamance County
 Materials: AC Coils, Aluminum, Aluminum
 Cans, Aluminum Cast, Aluminum Sheet,
 Aluminum Siding, Automobile-Radiators,
 Brass, Copper Tubing, Copper Wire, Die
 Cast, Heater Coils, Lead, Nickel,
 Steel-Stainless (non-magnetic), Zinc.
 General Requirements: Non-magnetic metals
 only; lower prices paid for mixed metals.

Aluminum Recycling of Greensboro
 2412 S. Elm-Eugene Street
 Greensboro, NC 27406
 Contacts: Vern S. Smith (Owner),
 (919) 272-1553; Jeff Broadnax (Mgr.),
 (919) 229-7471
 Service Area: Central North Carolina
 Materials: Aluminum, Automobile-Radiators,
 Brass, Copper, Lead, Steel-Stainless, Zinc.
 General Requirements: Company provides
 transportation service for volume and
 commercial accounts.

American Commodities, Inc.
 16165 W. 12 Mile Road
 Southfield, MI 48076
 Contacts: Mark Lieberman (Pres.),
 (313) 559-5300
 Service Area: International; United States
 Materials: ABS, Nylon, PVC, Polyester,
 Polyethylene, Polypropylene, Polystyrene.
 General Requirements: Company reprocesses
 materials for reuse.

American Metal & Parts Co., Inc.
 P.O. Box 17671
 Raleigh, NC 27619
 Contacts: Richard Rogers (Pres.),
 (919) 772-6527, FAX: (919) 779-6480
 Service Area: Eastern United States
 Materials: Aluminum (may be contaminated
 with other materials), Automobile-Auto
 Parts, Copper (may be contaminated with
 other materials), Red Metals, White Metals.
 General Requirements: None.

American Nat'l. Can, Foster-Forbes Glass
 2200 Firestone Parkway
 P.O. Box 1757
 Wilson, NC 27893
 Contacts: Carol D. Whitehead
 (Recycling Coord.), (919) 291-1500,

**GUIDELINES FOR DEVELOPING RECYCLING
IMPLEMENTATION PLANS FOR NORTH CAROLINA
STATE AGENCIES**

Prepared by the:

OFFICE OF WASTE REDUCTION

**N.C. Department of Environment, Health, and Natural Resources
3825 Barrett Drive, Raleigh, N.C. 27609**

(919) 571-4100

February 1992

Printed on 50% recycled paper, 10% post-consumer content

INTRODUCTION

In 1989, the General Assembly passed the Solid Waste Management Act, often referred to as Senate Bill 111, which drastically changed the course of solid waste management in the state. Senate Bill 111 and legislation passed since then, set a statewide waste reduction goal of 25% by 1993 and a more long range goal of 40% by the year 2001.

The majority of the requirements in Senate Bill 111 apply to local governments, however, state agencies also have a number of responsibilities. In addition, State government alone is a major generator of solid waste. While the primary state agencies responsible for implementing the law are working daily with cities, counties, and private industry to set up recycling and waste reduction programs, local governments often ask what the State is doing to meet its own deadlines and requirements in the law.

In his February 12, 1992 letter to each Departmental Secretary, Governor Martin reinforced his commitment for state government to take a lead role in recycling by requesting that state agencies, including the General Assembly, the General Court of Justice, and the University system, prepare recycling implementation plans by May 1, 1992 and submit them to the Department of Administration.

As you can see, State government is in a position where setting a good example will help us in many ways -- both from a leadership standpoint and from an efficiency standpoint as we make use of *resources* which we all too often regard as waste.

MANDATED STATE GOVERNMENT ACTIVITY

The law gives various state agencies different tasks, however, one portion of the legislation applies equally to all state agencies. Specifically, G.S. 130A -309.14 states:

"It shall be the duty of each State agency, the General Assembly, the General Court of Justice, and The University of North Carolina, by 1 January 1992 to;

- 1) Establish a program in cooperation with the Department [Environment, Health, and Natural Resources] and the Department of Administration, for the collection of all recyclable aluminum and waste paper materials generated in State offices throughout the State, including, at a minimum, high-grade office paper and corrugated paper.

- 2) Provide procedures for collecting and storing recyclable materials, containers for storing materials, and contractual or other arrangements with buyers of the recyclable materials.
- 3) Evaluate the amount of recyclable wastepaper materials recycled and make all necessary modifications to the recycling program to ensure that all recyclable wastepaper materials are effectively and practically recycled.
- 4) Establish and implement, in cooperation with the Department [EHNR] and the Department of Administration, a solid waste reduction program for materials used in the course of agency operation. The program shall be designed and implemented to achieve maximum feasible reduction of solid waste generated as a result of agency operations.

ROLES OF DEHNR AND DOA IN STATE GOVERNMENT RECYCLING

Two state agencies, the Department of Environment, Health, and Natural Resources (DEHNR) and the Department of Administration (DOA) were designated as entities to assist the various state agencies in carrying out the provisions in this part of Senate Bill 111. A primary motivation for this designation is that each has unique responsibilities with regard to recycling.

The Department of Environment, Health, and Natural Resources is the home to the agencies that routinely address the management of municipal solid waste throughout the state. The Solid Waste Section in the Division of Solid Waste Management is the lead regulatory agency for solid waste management and is responsible for enforcing the mandates in the law for local governments, private industry and others. The Office of Waste Reduction, also in DEHNR, works closely with the Solid Waste Section to provide technical assistance, training, planning and education on recycling and waste reduction to both public and private organizations throughout the state.

Likewise, the Department of Administration has important roles in recycling. DOA administers the contract with the private firm which collects office paper from state government offices throughout the Raleigh complex. Additionally, DOA houses the central purchasing agency for state government, the Division of Purchase and Contracts, which is an important player in "closing the loop" by listing items made from recycled materials on state contract. DOA is also in a good position administratively, to encourage recycling throughout state government and to help coordinate state agency recycling efforts.

Recognizing their responsibility to initiate a coordinated state recycling effort, DEHNR and DOA have joined efforts to help individual state agencies get

started in seriously implementing recycling programs in their respective departments. The intent of this effort is to initiate the establishment of a framework for recycling in all of state government and to build a sturdy foundation for sustainable programs in state government locations across the state.

ACTION PLAN FOR ASSISTING STATE AGENCIES IN MEETING THEIR DEADLINES

One of the first steps in helping state agencies get their recycling efforts established (or more developed) is the development of a written recycling implementation plan. In his letter to the Secretaries of all the Departments (see Attachment A), Governor Martin outlined a schedule for requesting and receiving state agency implementation plans which will be compiled into a report and presented to the General Assembly by June 1992.

The rationale behind individual plans is that recycling and waste reduction programs work best when they are well thought out and when full consideration has been given to the different types of waste which are generated in the course of agency operations. Additionally, implementation plans assist in the identification of existing recycling activity, or in some cases, the *lack* of recycling activity within the agency. They also help identify the different types of operations which state government operates which may generate large quantities or "unusual types" of waste.

For example, the Department of Transportation generates, among other items, tires and motor oil as its waste products, the State Zoo in DEHNR generates large amounts of organic waste, (e.g. plant and animal waste), and the Department of Corrections generates a large amount of food, packaging and other process waste through the Prison Enterprise operations. In short, while all our agencies generate large quantities of reports, memos and files, state government produces a lot more recyclable material than just paper!! Developing a systematic approach toward collecting those materials which are generated in large quantities as well as materials which have a good market value will be a critical step for each Department to follow before a comprehensive State government recycling program can be developed.

Once these plans are developed and in place, future efforts will be focused on ways to eliminate waste generation (source reduction) where feasible and implementing other waste reduction strategies.

As a way of getting the ball rolling for a state government recycling program, the following schedule has been developed:

February 21, 1992	Initial Meeting to distribute guidelines for developing departmental recycling implementation plans
April 1992	Second meeting to answer questions and continue technical assistance to each state agency
May 1, 1992	Agency implementation <u>plans due to the</u> Department of Administration
June 1992	Governor presents status report to the General Assembly about state government recycling efforts

DEVELOPING A DEPARTMENTAL RECYCLING IMPLEMENTATION PLAN

The last attempt at collecting information about state agency recycling efforts was during the spring of 1990 when Governor Martin's Recycling Task Force conducted a survey of recycling activities in various state agencies. At that time, recycling throughout state government was sporadic. While a state contract has been awarded to a private company for collecting office paper from many of the state office buildings in the Raleigh complex, these services are not comprehensive by any means. In addition, only certain types of paper are being collected through this contract. Collection of newsprint and other types of paper generated in state office buildings is often done by individual employees who volunteer to collect newspapers, for example, and take them to a drop-off point in their community recycling program, or in some cases, to one of the Wake County drop-off sites.

In addition, recycling in "satellite" state offices across the state is extremely varied and is often dictated by the presence or absence of available markets for recyclable materials in the different regions of the state. With the disparity in recycling efforts and the tremendous variation in need for initiation or expansion of recycling programs, a more comprehensive effort for all of state government is necessary. Therefore, the purpose of developing a more complete set of

information is to lay the foundation for establishing ongoing recycling programs which will meet the needs of the individual agencies and Departments involved.

ITEMS TO BE ADDRESSED IN THE IMPLEMENTATION PLAN

Recognizing that no single format will "fit" the needs of each department/agency, each implementation plan will be unique. However, in order to maintain some degree of consistency and in order for the Department of Administration to compare the various plans and to compile information into a centralized data collection system, at a minimum, the following items should be addressed in each Departmental plan:

Part 1. Identify the Scope of Departmental Operations.

One of the first things to be addressed in a recycling implementation plan is to identify the various divisions and the buildings which house employees in your department. This information provides you with a comprehensive picture which later will allow your Department to determine the best way in which to implement recycling.

(In Part 1 of your plan, please provide the following information):

- o Identify the various divisions/agencies within your department and the physical location of each. Where possible, provide the name of the building as well.
- o Determine the number of employees in each division.
- o Identify the various types of agency operations which fall under your Department.
- o Are all the operations of your department centrally located in Raleigh or are some conducted on a regional or local basis? (If your Department has regional offices across the state, provide a map of the various locations.)

Part 2. Determine Current Status of Waste Management Practices.

We often take for granted the waste management services provided to deal with our day-to-day waste generation. Becoming more familiar with what actually happens to our waste can tell us a lot. For example, does your Department have a single contract with a waste hauler to collect garbage from all the buildings in

Raleigh and individual contracts with local haulers in state buildings outside of Raleigh? Perhaps garbage collection is included in building lease agreements overseen by another state agency. In either case, do you know who the haulers are? Who handles the contracts? For what period of time are each of the contracts? Do the waste firms handle both garbage collection and recycling or are there separate contracts for each service?

(In Part 2, please provide the following information):

- ☐ Identify the company(ies) directly under contract to handle the waste generated by your Department.
- ☐ Provide the name of the person in your department/agency that administers the contracts.
- ☐ Please estimate the frequency of garbage and/or recyclable collection (i.e., how often do the private firms collect trash and/or recyclables?)
- ☐ If your Department manages its own waste, please provide the name of a contact person in charge of these operations. For example, are there any agencies within your department that compost their own woodwaste or process other materials?

3. Determine who is the most likely person/agency to be responsible for recycling within your Department.

Before you start from scratch in collecting the information necessary to prepare an implementation plan, find out if any of this information has already been collected. Chances are that a good portion of the work has already been done, but simply needs to be updated. Are there records or files kept on the recycling activities that have occurred to date in your Department?

(In Part 3, please provide the following information):

- o Provide the name(s) of the individual(s) currently responsible for recycling efforts in each Division and/or program area of your Department.**
- o If any of the agencies within your Department have developed a tracking system for determining types and quantities of materials recycled, please list the agencies, a contact person for each one, and a description of the information system.**

4. Assess the current wastestream.

Once a master list of agencies/programs within your Department has been identified, the next step is to determine the types and amounts of waste each of those agencies is generating. Sometimes the best way to determine this is to simply walk through various buildings/offices and look in recycling bins/trash cans and/or dumpsters to see what is being recycled and what is being thrown away.

What types of waste are being generated in your Department? Depending upon the duties performed by your agency, often, there are certain items that are being generated in large quantities which easily could be separated for recycling. For example, in addition to office paper, does your agency generate special types of paper such as cardboard, maps or blueprints? Are there loading docks with stacks of wooden pallets waiting for disposal? What about waste generated in your building, but perhaps not by any one agency. For example, what types of waste are being generated from support service activities such as print shops or mail rooms?

How much waste is being generated? In many of the Raleigh offices, "Grime Control" provides the state with estimates on a building-by-building basis of the amount of paper collected for recycling. However, it is often commonplace for several different agencies (some in different Departments) to occupy the same building. It may be next to impossible to accurately assess what is being generated on a single floor of one building, so in many cases, you may need to estimate the amount of paper being generated in each agency or division. However, even a rough estimate will help in the long run. For materials other than paper, it may be equally difficult for you to assess the exact amount being generated, but again, simply getting a grip on what is being handled (i.e., recycled or thrown away) is what is important at this stage.

(In Part 4, please provide the following information):

Identify the waste stream.

- o Identify the types and amounts of materials being recycled in your Department.
- o Identify materials which are not being recycled in your Department (that potentially could be recycled).
- o Estimate (in tons) the amount of waste that is thrown away.

5. Identify the resources available to implement a Departmental recycling/waste reduction program.

We have all experienced budget cuts and staff shortages. However, recycling should be viewed on equal footing with waste collection services which traditionally have been deemed necessary to conduct the day-to-day operations of any state agency. While planning and instituting recycling programs will require additional labor in the beginning, once in place, coordination and education are the primary needs for sustaining the programs.

(In Part 5, please provide the following information):

- o What resources (human, financial and other) does your Department have available to help you implement a recycling program?
- o Identify existing numbers and locations of centralized recycling containers/bins throughout the Department.
- o If your Department owns or leases any equipment such as balers, compactors, shredders, or vehicles that would facilitate recycling, please list these items.
- o Estimate what is necessary to get your Department's recycling/waste reduction program off the ground. How many people will you need and for what length of time? How much will it cost?

6. Determine how your Department/agency will conduct its educational program to solicit participation in the recycling program and to minimize contamination in recycling bins.

Recycling is an attitude and a habit. One of the greatest challenges facing anyone who implements a recycling program is how to educate co-workers about the types of materials acceptable (as well as those that are unacceptable) to be placed in the respective recycling containers or bins. In addition, once agency personnel are informed and properly participating in the program, periodic communication is necessary to sustain enthusiasm (and participation) in the program. See Attachment B for suggested educational activities and methods for assuring quality control.

(In Part 6, please provide the following information):

- o Describe the current mechanism for educating departmental/agency co-workers about the materials collected for recycling in your Department.**
- o Please provide copies of flyers/brochures, etc., which are used to inform the participants in your Department about recycling options available to them.**
- o If there have been any seminars/workshops on recycling in agency operations, please list the dates and times and identify the person(s) responsible for conducting them.**
- o If you have not yet developed an educational program who will be in charge of this aspect of the overall recycling program?**
- o What type of training will be provided to Departmental/agency employees?**
- o How will centralized recycling bins/containers be monitored to minimize contamination?**

7. Time frame for comprehensive agency recycling program implementation

While most agencies (though not all) have begun to recycle at least office paper, many have not taken the necessary steps to seriously assess their waste stream and institutionalize recycling programs throughout their respective departments. With both a legislative mandate and a directive from the Governor's

Office, recycling in state government offices is no longer an optional activity. It is recognized that some Departments will move quicker than others to implement recycling and similarly some will be more aggressive than others with the amounts and types of materials they recycle. Regardless of these differences, however, it is imperative that each Department/agency set a time frame for conducting the steps identified below. This often helps move the process along and will facilitate the implementation of a statewide, state agency recycling program.

(In Part 7, please develop a time frame for accomplishing the following steps:

- all plans should have a time frame*
1. Departmental recycling contact established
 2. Administrative structure in place to implement recycling plan
 3. Selected materials targeted for recycling
 4. Collection system(s) in place for marketable recyclables
 5. Educational/promotional methods developed for the program
 6. Educational/promotional programs initiated
 7. Development and establishment of data collection system(s) for tracking progress
 8. Evaluation method and time period established (annually or bi-annually?)

SUMMARY

The purpose of these guidelines is to provide a starting point for each Department or unit of state government (General Assembly, General Court of Justice, University System, Community Colleges, etc.) to take the necessary steps toward implementing waste reduction/recycling programs. Once recycling programs are in place and working well, efforts to encourage state agencies to establish other waste reduction programs, particularly source reduction programs, will be initiated.

Recycling is an easy concept to understand, however to be effective, a considerable amount of planning is necessary. These guidelines will not provide all the necessary information to plan and conduct a recycling program. That information is available in many forms and from many different sources, some of which will be presented to the persons attending the meetings mentioned above. At this point, however, the primary effort is to get each Department to give serious thought toward what it will take to incorporate recycling and waste reduction practices into their current agency operations.

If your Department or agency has already conducted this level of study and is ready to move forward on a comprehensive program and need assistance, the Office of Waste Reduction in the Department of Environment, Health, and Natural Resources is available to answer questions you might have regarding program planning and implementation.

STATE OF NORTH CAROLINA
OFFICE OF THE GOVERNOR
RALEIGH 27603-8001

JAMES G. MARTIN
GOVERNOR

February 12, 1992

MEMORANDUM

TO: Secretary William W. Cobey, Jr.
Environ., Health. & Nat. Resources

FROM: James G. Martin *JGM*

SUBJECT: Recycling Implementation Plans

With the passage of the 1989 Solid Waste Management Act (SB 111), the North Carolina General Assembly mandated that state and local government develop and implement programs to encourage the reduction of solid waste and to increase recycling efforts. Section 130A-309.14(a)1, of Senate Bill 111 requires that each state agency, the General Assembly, the General Court of Justice, and The University of North Carolina establish a program in cooperation with the Department of Environment, Health, and Natural Resources and the Department of Administration, for collection of all recyclable aluminum and wastepaper materials generated in State offices throughout the State, including, at a minimum, high-grade office paper and corrugated paper.

To facilitate the solid waste reduction efforts through waste reduction and recycling, I have committed state government to set an example for local governments and other states by taking a lead role in developing recycling programs and policy. If the State is to ask local governments to meet state waste reduction goals, it is imperative that state government take a leadership role through the establishment of its own waste reduction program.

I am, therefore, requesting that each state agency, the General Assembly, the General Court of Justice, and The University of North Carolina develop and submit statewide recycling implementation plans to the Department of Administration by May 1, 1992. These plans will be included in a Recycling Report to be submitted to the General Assembly June 1992.

Mr. William W. Cobey, Jr.
February 12, 1992
Page 2

Your unit of state government may already be well into your planning efforts, but to assist in this initiative, I have asked the Department of Administration and the Department of Environment, Health, and Natural Resources to coordinate their efforts in providing administrative and technical assistance. I have also asked the Office of Waste Reduction in the Department of Environment, Health, and Natural Resources to establish guidelines which agencies may use in writing their plans. The Department of Administration will conduct several meetings to be used for training and technical assistance regarding how to write a plan. At these meetings, the Office of Waste Reduction will provide training and technical assistance to the departments. The first meeting is scheduled for February 21, 1992, at 2:00 p.m., in the Commission Room, fifth floor, Administration Building. A second meeting will be held in April to answer any questions or help with any problems which departments may have encountered. A meeting notice has been sent out to previously-designated recycling representatives in each department.

If you have any questions please call Mr. John Dorman at (919) 733-4131 or Ms. Mary Beth Powell at (919) 571-4100. Thank you for your prompt attention to this request.

cc: Laird Davison

SOLID WASTE REDUCTION PROGRAM EMPLOYEE EDUCATION

Employee awareness and cooperation are the cornerstones of any successful waste reduction and recycling program. Education efforts should outline the program's purpose and guidelines, emphasize top management's commitment to recycling, and stress that employees are vital to making the program a success.

These messages can be conveyed to employees in a variety of ways:

- Send a "kick-off" memo, signed by top management, to all employees that briefly explains the program and why it's being started.
- Schedule a meeting with managers to explain the program's objectives and operational details.
- Schedule small group employee meetings to explain the program, distribute informational material, and answer questions.
- Place highly-visible, attention-getting posters at recycling collection points to inform employees where to place their recyclables and remind them how to prepare materials.
- Post recycling statistics in each building so that employees can see their progress.
- Publish updated statistics and articles in employee newsletters.
- Provide a telephone number that employees can call for assistance.

In addition, floor coordinators should be assigned to keep employees informed about various aspects of the recycling program, and to regularly check recycling containers for unacceptable materials, such as "post-it" notes attached to white paper, paper clips, and other items that do not belong with that type of material. These "contaminates" should be removed from the bins, and the owner informed that the material is unacceptable. For example, if a magazine is found in the white paper recycling bin and the subscriber's name is attached, that person should receive a gentle reminder that magazines should not be placed with white paper. Floor coordinators' quality control measures will help ensure that recyclables are not rejected by the markets they are destined for.
