**UNC Prospective NC HUB Firms - March 2011**

This list reflects the compilation of names and addresses for potential construction contractors, subcontractors, suppliers, etc., from a number of sources and represents a resource to seek minority participation. It is not an endorsement for any firm(s) listed.

The compiled list is not necessarily all-inclusive, simply a consolidation of existing information in a single place. To find firms beginning with "The," "A," or other definite articles, ignore the definite article.

No certification is made as to the accuracy of the information listed as drawn from these various sources during the period 11/2004 - 12/2006, and updated based on subsequent feedback. HUB Academy graduates are included and identified by highlighting.

**UNC Prospective NC HUB Firms - March 2011**

This list reflects the compilation of names and addresses for potential construction contractors, subcontractors, suppliers, etc., from a number of sources and represents a resource to seek minority participation. It is not an endorsement for any firm(s) listed.

The compiled list is not necessarily all-inclusive, simply a consolidation of existing information in a single place. To find firms beginning with "The," "A," or other definite articles, ignore the definite article.

No certification is made as to the accuracy of the information listed as drawn from these various sources during the period 11/2004 - 12/2006, and updated based on subsequent feedback. HUB Academy graduates are included and identified by highlighting.

**UNC Prospective NC HUB Firms - March 2011**

This list reflects the compilation of names and addresses for potential construction contractors, subcontractors, suppliers, etc., from a number of sources and represents a resource to seek minority participation. It is not an endorsement for any firm(s) listed.

The compiled list is not necessarily all-inclusive, simply a consolidation of existing information in a single place. To find firms beginning with "The," "A," or other definite articles, ignore the definite article.

No certification is made as to the accuracy of the information listed as drawn from these various sources during the period 11/2004 - 12/2006, and updated based on subsequent feedback. HUB Academy graduates are included and identified by highlighting.

**UNC Prospective NC HUB Firms - March 2011**

This list reflects the compilation of names and addresses for potential construction contractors, subcontractors, suppliers, etc., from a number of sources and represents a resource to seek minority participation. It is not an endorsement for any firm(s) listed.

The compiled list is not necessarily all-inclusive, simply a consolidation of existing information in a single place. To find firms beginning with "The," "A," or other definite articles, ignore the definite article.

No certification is made as to the accuracy of the information listed as drawn from these various sources during the period 11/2004 - 12/2006, and updated based on subsequent feedback. HUB Academy graduates are included and identified by highlighting.

Corrections, deletions, or additions may be e-mailed to [mdtripp@northcarolina.edu](mailto:mdtripp@northcarolina.edu).

**UNC Prospective NC HUB Firms - March 2011**

This list reflects the compilation of names and addresses for potential construction contractors, subcontractors, suppliers, etc., from a number of sources and represents a resource to seek minority participation. It is not an endorsement for any firm(s) listed.

The compiled list is not necessarily all-inclusive, simply a consolidation of existing information in a single place. To find firms beginning with "The," "A," or other definite articles, ignore the definite article.

No certification is made as to the accuracy of the information listed as drawn from these various sources during the period 11/2004 - 12/2006, and updated based on subsequent feedback. HUB Academy graduates are included and identified by highlighting.

**UNC Prospective NC HUB Firms - March 2011**

This list reflects the compilation of names and addresses for potential construction contractors, subcontractors, suppliers, etc., from a number of sources and represents a resource to seek minority participation. It is not an endorsement for any firm(s) listed.

The compiled list is not necessarily all-inclusive, simply a consolidation of existing information in a single place. To find firms beginning with "The," "A," or other definite articles, ignore the definite article.

No certification is made as to the accuracy of the information listed as drawn from these various sources during the period 11/2004 - 12/2006, and updated based on subsequent feedback. HUB Academy graduates are included and identified by highlighting.

**UNC Prospective NC HUB Firms - March 2011**

This list reflects the compilation of names and addresses for potential construction contractors, subcontractors, suppliers, etc., from a number of sources and represents a resource to seek minority participation. It is not an endorsement for any firm(s) listed.

The compiled list is not necessarily all-inclusive, simply a consolidation of existing information in a single place. To find firms beginning with "The," "A," or other definite articles, ignore the definite article.

No certification is made as to the accuracy of the information listed as drawn from these various sources during the period 11/2004 - 12/2006, and updated based on subsequent feedback. HUB Academy graduates are included and identified by highlighting.

**UNC Prospective NC HUB Firms - March 2011**

This list reflects the compilation of names and addresses for potential construction contractors, subcontractors, suppliers, etc., from a number of sources and represents a resource to seek minority participation. It is not an endorsement for any firm(s) listed.

The compiled list is not necessarily all-inclusive, simply a consolidation of existing information in a single place. To find firms beginning with "The," "A," or other definite articles, ignore the definite article.

No certification is made as to the accuracy of the information listed as drawn from these various sources during the period 11/2004 - 12/2006, and updated based on subsequent feedback. HUB Academy graduates are included and identified by highlighting.

**UNC Prospective NC HUB Firms - March 2011**

This list reflects the compilation of names and addresses for potential construction contractors, subcontractors, suppliers, etc., from a number of sources and represents a resource to seek minority participation. It is not an endorsement for any firm(s) listed.

The compiled list is not necessarily all-inclusive, simply a consolidation of existing information in a single place. To find firms beginning with "The," "A," or other definite articles, ignore the definite article.

No certification is made as to the accuracy of the information listed as drawn from these various sources during the period 11/2004 - 12/2006, and updated based on subsequent feedback. HUB Academy graduates are included and identified by highlighting.

**UNC Prospective NC HUB Firms - March 2011**

This list reflects the compilation of names and addresses for potential construction contractors, subcontractors, suppliers, etc., from a number of sources and represents a resource to seek minority participation. It is not an endorsement for any firm(s) listed.

The compiled list is not necessarily all-inclusive, simply a consolidation of existing information in a single place. To find firms beginning with "The," "A," or other definite articles, ignore the definite article.

No certification is made as to the accuracy of the information listed as drawn from these various sources during the period 11/2004 - 12/2006, and updated based on subsequent feedback. HUB Academy graduates are included and identified by highlighting.

Corrections, deletions, or additions may be e-mailed to [mdtripp@northcarolina.edu](mailto:mdtripp@northcarolina.edu).

UNC Prospective NC HUB Firms - March 2011												
This list reflects the compilation of names and addresses for potential construction contractors, subcontractors, suppliers, etc., from a number of sources and represents a resource to seek minority participation. It is not an endorsement for any firm(s) listed.												
The compiled list is not necessarily all-inclusive, simply a consolidation of existing information in a single place. To find firms beginning with "The," "A," or other definite articles, ignore the definite article.												
No certification is made as to the accuracy of the information listed as drawn from these various sources during the period 11/2004 - 12/2006, and updated based on subsequent feedback. HUB Academy graduates are included and identified by highlighting.												
Corrections, deletions, or additions may be e-mailed to <a href="mailto:mdtripp@northcarolina.edu">mdtripp@northcarolina.edu</a> .
