CNS UPDATES 10-29-21

COURSE REVIEW PROCESS

Campuses have submitted their spreadsheets with course equivalencies. Preliminary data shows that there are over 2,200 equivalencies across the UNC system (187 courses reviewed).

Next Steps:
- Conduct discipline meetings to address any questions/concerns regarding course equivalencies (November)
- Submit a list of equivalencies to campus CAO's/Provosts for approval (December)
- Deadline for submission of approved campus equivalencies to the Senior Vice President of Academic Affairs at the System Office moved to January 15
- Determine which of the 187 recommended courses will remain as a part of the CNS Course List

IT

Focus Groups – Prototype of Equivalency Search
- Focus group meetings were conducted the week October 25th to gather feedback on the prototype of the user interface to search and explore equivalencies, which will be housed on the CNS public facing website. There were 3 advisor and 3 student groups. Feedback has been informative and valuable to the IT team as they further develop the database and website. Participants were from ASU, ECU, ECSU, UNCSA and UNCG.

OPERATIONS MANUAL

Many thanks to those who provided feedback on the Operations Manual (OM). Final edits are being made with a deadline for completion by November 1. The OM will be available on the CNS webpage.
