“The House budget recognizes the value of public higher education in North Carolina, with support for the university system’s major priorities, including enrollment growth, building reserves, NC Promise and significant raises for many of our employees. We’re especially glad to see a strong proposal to begin to address a heavy backlog of repair and renovation needs on our 17 campuses. We’re grateful for the House’s support in this budget.”

- Peter Hans, president of the University of North Carolina System

“We’re gratified that the Senate budget plan has recognized our core priorities – enrollment growth, NC Promise, employee raises and building reserves. We’re also encouraged that the proposed budget includes an infusion of funding to take care of much-needed repair and renovation of buildings on our campuses. We appreciate the Senate’s support of public higher education in North Carolina.”

- Peter Hans, president of the University of North Carolina System
